Eating habits

↑↑ Pegasorse home ↑↑

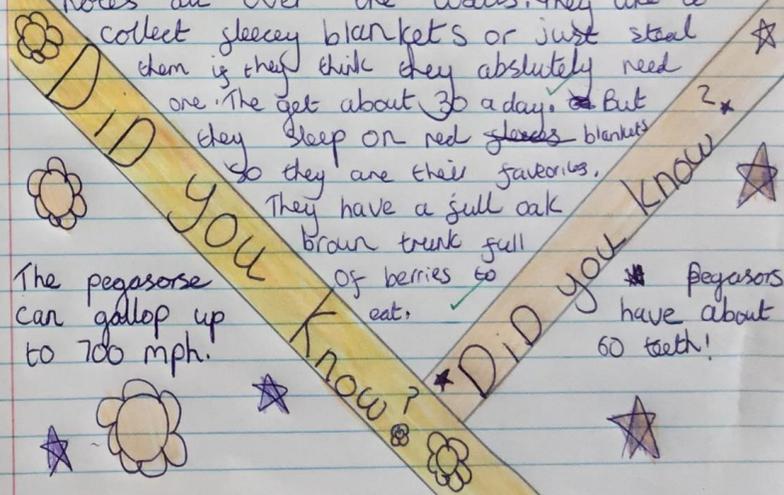

Pegasorses are creatures living in woods, where it is always raining and Autumn. They are mostly vegetarian and consume berries and worms. They kill its prey with its tail. They swish away the dirt to find earth worms. Only if they find badgers they may kill and devour them. Scientists know they need 100g meat a day but they are trying to find another animal they may eat but they THINK it is skunks but they are not 100% sure.

Habitat

Pegasorses live in forests where it is always autumn and raining. They live and sleep in a cosy ancient cave with drawings and old notes all over the walls. They like to collect sleazy blankets or just steal them if they think they absolutely need one. They get about 30 a day. But they sleep on red gloves blankets so they are their favorites. They have a gull oak brown trunk full of berries to eat.

The pegasorse can gallop up to 700 mph.

Pegasorses have about 60 teeth!

THE HAPPY

INTRODUCTION

This mythical creature (Horman) is half-human half-horse. Horman may seem dangerous but is very, very friendly if you ever meet him. Read on to find more secrets that are hidden in this story.

Appearance

Hormans are usually very tall, which Horman is - because of their very big legs. Horman's legs are giant and muscular, which comes in handy for kicking and he has four of them because he is half horse. He has a strong body which is bumpy and golden. It could easily bump most animals over in Narnia. In the upper part of his body was a human, he was very strong and looked like he was in an army. He had masculine eyes which were grey. So he looked very angry. So beware of this Horman he might scare you.

DID YOU KNOW?

Horman is nearly 7 feet tall that like stacking two children on top of each other.

HUNGRY HORMAN

Diet

Horses are ^{herbivores} ~~omnivores~~ and some are humans are as well. but Horman is an omnivore. So he eats anything that he likes, his diet is cake, sardines, fish, vegetables (occasionally) and insects. He eats about 50 of each of them. He sometimes gets the food from other creatures, but he mostly gets it himself from hunting. He's very fast so insects can't run away and is a very good swimmer. So he doesn't drown. Scientists are still puzzled on how it survives in the harsh environments of Narnia.

Habitats

Hormans are usually found in forests and snowy environments that's why Hormans live in Narnia. Narnia is always winter because of the white witch. She ordered 500 trees down so not many Hormans.

Secret occupations

Much better handwriting today!

Hormans may be friendly and they are but they hold a deep secret. They have a tree-cutting job but that's not all. They work for the white witch so beware if you hear his song you'll fall to asleep. So keep this a secret.

MR TUTUW

diet

delic

especially

especially

HEHH (half elephant half human) have a strange diet that I bet you haven't seen before. HEHH eat high plants and snakes especially the eyes of a snake because that is the juiciest. Because they are half human the queen who wants all of them so she seeds them turkish delic.

HEHH (half elephants half humans) are strange looking creatures. They have dry, scaly grey skin and are born with a permanent pink sparkly dress on. This creature stand on 2 elephant hooves attached to 2 human legs. They have the torso of a human. They are all identical. They have an elephant trunk and elephant ears. They don't have any hair, and if they do, it means that they are so very close death normally they have 2 days left to live.

This magical, crazy creature is only found in the northern part of the forest. They are two feet tall but when fully grown they are seven feet tall. These creatures live for up to one hundred and seventy five years long. Their mother gives birth to most their baby then they leave them to be independent. The babies are very delicate. For example if they interact with other animals by the sixth week then they can get very ill and it can leave to death.

21/10/23

Half human half elephant

If their parents don't leave them then they are lonely.

The queen wants to capture them so she seeds them turkish delic so that they come back.

Habitats:

They live in huge nest houses as they are just. There is one huge problem. They only live 5 miles from the evil queen. She can guide them back to her evil lair. Her guards disagree with her deep down but can't show it or else they can will kill them. They cover their houses in fog, snow and trees so then the evil queen doesn't receive it.

Crazily, HEHH aren't well known but after seeing them you can't forget their face. They are the construction workers for Narnia. They have built 100576 houses in Narnia exactly over the past month. But they don't get paid, the evil queen forces to make her a new castle every week.

Good presentation. Check my corrections please!

Did you know that? Most half elephant half humans are born as twins in Narnia.
