Online safety policy

Approved by:	Andrew Robinson	**Date:**	26/8/26
Last reviewed on:	August 2026		
Next review due by:	August 2027		

Date	Action	Originator
June 2024	New policy	Andrew Robinson
June 2025	No Changes	Andrew Robinson
August 2026	Annual review- minor updates for KCSIE 2026, AI risks, filtering and monitoring, cyber/data protection and appendix corrections.	Andrew Robinson
November 2026	Updated that online-safety concerns and incidents are recorded on CPOMS. Removed the separate online-safety incident log and iPad monitoring form.	Andrew Robinson

Appendix 3: acceptable use agreement (staff, governors, volunteers and visitors) 13
Appendix 4: online safety training needs – self-audit for staff 14

1. Aims

Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Identify and support groups of pupils that are potentially at greater risk of harm online than others
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, racism, misogyny, self-harm, suicide, antisemitism, radicalisation, extremism, extreme sexual or physical violence, misinformation, disinformation (including fake news) and conspiracy theories.
- **Contact** – being subjected to harmful online interaction with other users or generative artificial intelligence (AI) applications that simulate interaction, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.
- **Conduct** – online behaviour that increases the likelihood of, or causes, harm, such as making, sending or receiving explicit images, including consensual and non-consensual making or sharing of nudes and semi-nudes, images generated or altered using AI, sharing other explicit or abusive images, pornography and online bullying.

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

- **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams.

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, Keeping Children Safe in Education, and its advice for schools on:

- Teaching online safety in schools
- Preventing and tackling bullying and cyber-bullying: advice for headteachers and school staff
- Relationships and sex education
- Searching, screening and confiscation

It also refers to the DfE's guidance on protecting children from radicalisation.

It reflects existing legislation, including but not limited to the Education Act 1996 (as amended), the Education and Inspections Act 2006 and the Equality Act 2010. In addition, it reflects the Education Act 2011, which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also has regard to the UK General Data Protection Regulation (UK GDPR), the Data Protection Act 2018 and the Data (Use and Access) Act 2025.

The policy also takes into account the National Curriculum computing programmes of study.

3. Roles and responsibilities

3.1 The governing board

The governing board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing board will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety, requirements for training, and review anonymised information about online-safety incidents recorded on CPOMS, as provided by the designated safeguarding lead (DSL).

The governing board should ensure children are taught how to keep themselves and others safe, including keeping safe online.

The governing board must ensure the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The board will review the DfE filtering and monitoring standards, and discuss with ICT staff and service providers what needs to be done to support the school in meeting the standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems;
- Reviewing filtering and monitoring provisions at least annually;
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning;
- Having effective monitoring strategies in place that meet their safeguarding needs.

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

The annual filtering and monitoring review will be led by the responsible SLT member, supported by the DSL and IT support and involving the responsible governor. Checks will cover all internet-connected devices in all relevant locations, and the findings and resulting actions will be recorded.

The governor who oversees online safety is Matt Dunkin.

All governors will:

- Ensure they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 3)
- Ensure that online safety is a running and interrelated theme while devising and implementing their whole-school approach to safeguarding and related policies and/or procedures
- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The headteacher

The headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The Computing Lead

The DSL retains lead responsibility for safeguarding, including online safety. The Computing Lead supports the DSL and leads curriculum development, staff awareness and liaison with IT support.

The Computing Lead is responsible for:

- Supporting the headteacher and DSL in ensuring that staff understand this policy and that it is implemented consistently throughout the school.
- Working with the headteacher, DSL and governing board to review this policy annually and ensure that procedures remain current.
- Leading the development and monitoring of the online-safety curriculum.
- Developing an understanding of the filtering and monitoring systems and processes in place on school devices and networks.
- Working with the DSL, responsible SLT member and IT technician to ensure that appropriate filtering and monitoring systems are in place.
- Supporting the annual filtering and monitoring review and contributing to the school's annual online-safety risk assessment.
- Ensuring that staff know how to report a failure or concern relating to filtering and monitoring.
- Working with the DSL, headteacher and IT technician to address online-safety issues appropriately.
- Ensuring that online-safety concerns and incidents are reported immediately to the DSL and recorded on CPOMS in line with the school's safeguarding procedures.
- Supporting the appropriate recording and response to cyberbullying incidents in accordance with the safeguarding and behaviour policies.
- Supporting the DSL in providing staff training and regular updates about online safety.
- Liaising with external agencies or services when requested by the DSL or headteacher.
- Providing regular reports about online-safety provision, curriculum and emerging risks to the headteacher and governing board.

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

This list is not intended to be exhaustive.

3.4 The IT technician

The IT technician is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
- Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
- Conducting a full security check and monitoring the school's ICT systems on a monthly basis
- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files

This list is not intended to be exhaustive.

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and ensuring that pupils follow the school's terms on acceptable use (appendices 1 and 2)
- Knowing that the IT technician is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing, by logging them on the IT issues sheet and informing the Computing Lead
- Following the correct procedures by, logging it on the IT issues sheet and informing the Computing Lead if they need to bypass the filtering and monitoring systems for educational purposes
- Reporting all online-safety concerns and incidents immediately to the DSL and recording them on CPOMS in line with the school's safeguarding procedures.
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

3.6 Parents/carers

Parents/carers are expected to:

- Notify a member of staff or the headteacher of any concerns or queries regarding this policy
- Ensure their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendices 1 and 2)

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues? – UK Safer Internet Centre
- Hot topics – Childnet
- Parent resource sheet – Childnet

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 3).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum:

The text below is taken from the National Curriculum computing programmes of study.

It is also taken from the guidance on relationships education, relationships and sex education (RSE) and health education.

All schools have to teach:

- Relationships education and health education in primary schools

In **Key Stage (KS) 1**, pupils will be taught to:

- Use technology safely and respectfully, keeping personal information private
- Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies

Pupils in **Key Stage (KS) 2** will be taught to:

- Use technology safely, respectfully and responsibly
- Recognise acceptable and unacceptable behaviour
- Identify a range of ways to report concerns about content and contact

By the **end of primary school**, pupils will know:

- That people sometimes behave differently online, including by pretending to be someone they are not
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, including when we are anonymous
- The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them
- How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met
- How information and data is shared and used online
- What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context)
- How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

5. Educating parents/carers about online safety

The school will raise parents/carers' awareness of internet safety by posting monthly online-safety newsletters on Class Dojo and the school website, and including links to useful internet safety material on the school website. This policy will also be shared with parents/carers.

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

Online safety may also be covered during parents' evenings.

If parents/carers have any queries or concerns relating to online safety, these should be raised with the headteacher, DSL or Computing Lead, depending on the nature of the concern. Any safeguarding concern will be passed to the DSL immediately.

Concerns or queries about this policy can be raised with any member of staff or the headteacher.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Class teachers will discuss cyber-bullying with their class.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also report information about cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected. This information can be found on the school website on the Online Safety page.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

The headteacher, and any member of staff authorised to do so by the headteacher, can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

- Poses a risk to staff or pupils, and/or
- Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the headteacher
- Explain to the pupil why they are being searched, how the search will happen, and give them the opportunity to ask questions about it
- Seek the pupil's co-operation

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

- Cause harm, and/or
- Undermine the safe environment of the school or disrupt teaching, and/or
- Commit an offence

If inappropriate material is found on the device, it is up to the staff member in conjunction with the headteacher to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding if there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
- The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member **suspects** that a device **may** contain a nude or semi-nude image of a child, including an image that has been digitally altered or wholly generated using AI, they will:

- **Not** view the image
- Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on screening, searching and confiscation and the UK Council for Internet Safety (UKCIS) guidance on sharing nudes and semi-nudes: advice for education settings working with children and young people

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on searching, screening and confiscation
- UKCIS guidance on sharing nudes and semi-nudes: advice for education settings working with children and young people

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

6.4 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative AI chatbots, image generators and other tools that can create text, images, audio or video.

Stubbins Primary School recognises that AI can support teaching and learning when it is used safely and appropriately. Any school use of generative AI will be approved, age-appropriate, risk assessed and appropriately supervised.

Only school-approved AI tools may be used. Staff and pupils must not enter personal, sensitive or confidential information into an AI tool unless its use has been formally approved and complies with the school's data-protection procedures. AI-generated content must be checked for accuracy, bias and suitability before it is used.

AI may also be used to cause harm or bully others. This may include the creation of deepfakes, where AI is used to create or alter images, audio or videos so that they appear real. This includes the creation of nude or semi-nude images using another person's likeness.

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

Any harmful or inappropriate use of AI will be addressed in accordance with the school's safeguarding, behaviour and acceptable-use policies. Staff must report safeguarding concerns involving AI immediately to the DSL.

Staff must follow school and DfE guidance on the safe and effective use of AI, including safeguarding, data protection, intellectual property and the checking of AI-generated information.

7. Acceptable use of the internet in school

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 to 3). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendices 1 to 3 and in our acceptable use policy.

8. Pupils using mobile devices in school

Pupils in Year 5 and 6 may bring mobile devices into school, which will be collected in at the start of the day and held in the school office until the end of school day. Children are not permitted to use them at any point on the school grounds.

9. Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device secured with a unique, strong password or passphrase in accordance with the school's password policy, using multi-factor authentication where required, and changing credentials immediately if they are compromised or suspected of compromise
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Not stopping anti-virus and anti-spyware software running in the background
- Keeping operating systems up to date by always installing the latest updates

Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in appendix 3.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the IT technician and/or the Computing Lead.

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on behaviour and acceptable use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff code of conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through:
  - Abusive, threatening, harassing and misogynistic messages
  - The making or sharing of nudes and semi-nudes, whether consensual or non-consensual, including images generated or altered using AI, especially around chat groups.
  - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- Develop better awareness to assist in spotting the signs and symptoms of online abuse
- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

12. Monitoring arrangements

The DSL is responsible for ensuring that safeguarding concerns and incidents relating to online safety, together with actions taken and follow-up, are recorded on CPOMS in line with the school's safeguarding procedures. A separate online-safety incident report log is not required. Technical filtering and monitoring checks must still be recorded, as set out in section 3.1.

This policy will be reviewed every year by the Computing Lead. At every review, the policy will be shared with the governing board.

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

13. Links with other policies

This online safety policy is linked to our:

- Child protection and safeguarding policy
- Behaviour policy
- Staff disciplinary procedures
- Data protection policy and privacy notices
- Complaints procedure
- Acceptable use policy
- Stubbins Code of Conduct

Appendix 1: EYFS and KS1 acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS	
Name of pupil:	
When I use the school's ICT systems (like computers) and get onto the internet in school I will: • Ask a teacher or adult if I can do so before using them • Only use websites that a teacher or adult has told me or allowed me to use • Tell my teacher immediately if: ○ I select a website by mistake ○ I receive messages from people I don't know ○ I find anything that may upset or harm me or my friends • Use school computers for school work only • Be kind to others and not upset or be rude to them • Look after the school ICT equipment and tell a teacher straight away if something is broken or not working properly • Only use the username and password I have been given • Try my hardest to remember my username and password • Never share my password with anyone, including my friends • Never give my personal information (my name, address or telephone numbers) to anyone without the permission of my teacher or parent/carer • Save my work on the school network • Check with my teacher before I print anything • Log off or shut down a computer when I have finished using it **I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.**	
Signed (pupil):	**Date:**
Parent/carer agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and will make sure my child understands these.	
Signed (parent/carer):	**Date:**

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

Appendix 2: KS2 acceptable use agreement (pupils and parents/carers)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR PUPILS AND PARENTS/CARERS	
Name of pupil:	
I will read and follow the rules in the acceptable use agreement policy. **When I use the school's ICT systems (like computers) and get onto the internet in school I will:** • Always use the school's ICT systems and the internet responsibly and for educational purposes only • Only use them when a teacher is present, or with a teacher's permission • Keep my usernames and passwords safe and not share these with others • Keep my private information safe at all times and not give my name, address or telephone number to anyone without the permission of my teacher or parent/carer • Tell a teacher (or sensible adult) immediately if I find any material that might upset, distress or harm me or others • Always log off or shut down a computer when I've finished working on it **I will not:** • Access any inappropriate websites including: social networking sites, chat rooms and gaming sites unless my teacher has expressly allowed this as part of a learning activity • Open any attachments in emails, or follow any links in emails, without first checking with a teacher • Use any inappropriate language when communicating online, including in emails • Create, link to or post any material that is pornographic, offensive, obscene or otherwise inappropriate • Log in to the school's network using someone else's details • Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision **If I bring a personal mobile phone into school in Year 5 or Year 6:** • I will hand it in at the start of the school day. • I will not use it during lessons, after school clubs or on the school grounds, without a teacher's permission. **I agree that the school will monitor the websites I visit and that there will be consequences if I don't follow the rules.**	
Signed (pupil):	**Date:**
Parent/carer's agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.	
Signed (parent/carer):	**Date:**

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

Appendix 3: acceptable use agreement (staff, governors, volunteers and visitors)

ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR STAFF, GOVERNORS, VOLUNTEERS AND VISITORS	
Name of staff member/governor/volunteer/visitor:	
When using the school's ICT systems and accessing the internet in school, or outside school on a work device, I will not: • Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material) • Use them in any way that could harm the school's reputation • Access social networking sites or chat rooms • Use any improper language when communicating online, including in emails or other messaging services • Install any unauthorised software, or connect unauthorised hardware or devices to the school's network • Share my password with others or log in to the school's network using someone else's details • Take, store or share photographs or videos of pupils using a personal device unless explicitly authorised under school policy. I will only use authorised equipment and will follow the school's safeguarding, data-protection and photo/video procedures. • Share confidential information about the school, its pupils or staff, or other members of the community • Access, modify or share data I'm not authorised to access, modify or share • Promote private businesses, unless that business is directly related to the school	
I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role. I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems. I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy. I will let the designated safeguarding lead (DSL) and Computing Lead know if a pupil informs me they have found any material that might upset, distress or harm them or others, and will also do so if I encounter any such material. I will always use the school's ICT systems and internet responsibly, and ensure that pupils in my care do so too.	
Signed (staff member/governor/volunteer/visitor):	**Date:**

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms

Appendix 4: online safety training needs – self-audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
Name of staff member/volunteer:	**Date**:
Question	**Yes/No (add comments if necessary)**
Do you know the names of the people who have lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Are you familiar with the filtering and monitoring systems on the school's devices and networks?	
Do you understand your role and responsibilities in relation to filtering and monitoring?	
Do you use unique passwords or passphrases, use multi-factor authentication where required, and know how to report a suspected compromise?	
Are you familiar with the school's approach to tackling cyber-bullying?	
Are there any areas of online safety in which you would like training/further training?	

© The Key Support Services Ltd | For terms of use, visit thekeysupport.com/terms
