

Multiples of 10, 100 and 1,000

7. Jerry and Daisy are discussing number facts that are related to the calculation below.

$$240 \times 50 = 12,000$$

Jerry

A related number fact is twelve thousand divided by two hundred and forty equals fifty

Daisy

A related number fact is two hundred and forty divided by five equals twelve

Who is correct?

VC
Hm/Ed

8. Work out which numbers have been hidden by the splats. Give three related number facts.

$$\text{[Splat]}0 \div \text{[Splat]}0 = \text{eight hundred and forty}$$

VC
Hm/Ed

9. Use the digit cards below to make the statement below true.

three hundred and forty multiplied by one hundred $>$ sixty eight thousand divided by one hundred

$$\boxed{} \times 100 < 34,000 \div \boxed{}$$

5

3

1

0

You can use each digit card more than once.
