

## **Nursery Home Learning Expectations**

- Children should read/share a book at home with a grown up at least three times per week. This can include: their school library book or other books from home.
- Each week the class teacher will identify three curriculum words, which children have explored in class that week linked to their curriculum project. Please discuss these words with children to further support their understanding.
- Children will be set a weekly task via Purple Mash.
- Children will be set learning tasks from their termly Cornerstones curriculum project to support their learning. Please share photos and comments about your child's Home Learning with the Nursery Team through Class Dojo.

Your child's class teacher will notify you of days that homework should be returned.

All children have received their login and passwords to access the different learning platforms. You can find the access links to all learning platforms on the relevant Class Pages on our school website.

If you have any further questions about Home Learning or need any assistance, please contact your child's class teacher.
