

Art and Design Policy

Horwich Parish CE Primary School

Approved by: School & Community Development Committee	Date: Summer 25
Author: Miss S Hargreave	Version: 2
Last reviewed on:	Summer 25
Next review due by:	Summer 26

*Our vision is to be a school where everyone can achieve and “let their light shine” both individually and collectively as a community.
Learning to love each other as Jesus loved us, respecting each other and growing into the people God has called u to be.*

1. Rationale

At Horwich Parish CE School, we believe that Art and design stimulates creativity and imagination. It provides visual, tactile and sensory experiences and a special way of understanding and responding to the world and enables children to communicate what they see, feel and think through the use of colour, texture, form, pattern and different materials and processes.

2. Aims

- To enable children to become visually literate and understand that Art is a form of communication.
- To enable children to use a wide range of media to communicate ideas and feelings.
- To learn about artists and sculptors and use their ideas as inspiration.
- To nurture and harness creativity and acquire and develop a range of skills and techniques.
- To develop children's capacity for imaginative and original thought and to try out ideas without the fear of failing.
- To enable children through observation to learn about the world around them.
- To help children learn about the role of art, craft and design in their environment and take inspiration from it.
- To enable children to become independent in the planning and reviewing of their work.
- To enable children to develop their full potential confidently and independently.

3. Implementation of the Policy

At Horwich Parish CE School Art is a hands-on activity that needs the teacher to be directly involved with the children in the lesson to set the task, to impart knowledge, to lead activities, to monitor and develop the children's progress, to encourage development and to ensure that each child reaches an appropriate standard through:

- Using a variety of approaches that are matched to the activity, and cater for the range of ability of the children.
- Having the opportunity to examine stimulating objects, such as natural objects, everyday artefacts and historical artefacts.
- Developing clear links between art and design and I.C.T. opportunities.
- Encouraging children to work individually, in pairs, small groups and as a whole class when required.
- Encouraging the development of personal and social skills, being fully inclusive and giving equal access for pupils to learning opportunities.
- Ensuring that issues of Health and Safety are addressed in the planning and delivery of the art curriculum.

4. The Early Years Foundation Stage

At Horwich Parish CE School we encourage creative work in the reception class as this is part of the Foundation Stage of the National Curriculum. We relate the creative development of the children to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five. The children's learning includes art, music, dance, role-play and imaginative play. The range of experience encourages children to make connections between one area of learning and another and so extends their understanding.

At Horwich Parish CE School we provide a rich environment in which we encourage and value creativity. Children experience a wide range of activities that they respond to, using the various senses.

At Horwich Parish CE School within the Foundation Stage we run continuous provision, where children have free access to all resources and opportunities, both indoors and outdoors, allowing them to develop their knowledge, skills and understanding at their own pace and interest. We relate the creative development of the children to the points set out in the Foundation Stage Profile, as well as the age-related expectations in Development Matters which underpin the curriculum planning for children from birth to five.

5. Key Stage One

At Horwich Parish CE School during Key Stage 1, art and design is about developing children's technical skills as well as their creativity and imagination through providing art, craft and design activities that relate to children's own identities and experiences, the natural and made objects and materials with which they are familiar and the locality in which they live. Sculptors' and artists' work is shared with the children as a launchpad for their own ideas.

6. Key Stage Two

At Horwich Parish CE School during Key Stage 2, art and design is about developing children's technical skills and creativity and imagination by building on their knowledge, skills and understanding of materials and processes through providing more complex activities. Children are taught about the impact and ideas that artists and sculptors have had in the world and are encouraged to use their work as inspiration to explore their own ideas. Children's experiences help them to develop their understanding of the diverse roles and functions of art and design in the locality and in the wider world.

Within each year group a range of art genres are taught (drawing, painting, printing, collage, textiles and sculpture to include clay work.) These areas are taught under the umbrella title of each topic.

7. Differentiation

At Horwich Parish CE School we recognise the fact that we have children of differing ability in all our classes, and so we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this through a range of strategies:

- Setting common tasks that are open-ended and can have a variety of responses.
- Setting tasks of increasing difficulty where not all children complete all tasks.
- Grouping children by ability and setting different tasks for each group.
- Providing a range of challenges with different resources.
- Using additional adults to support the work of individual children or small groups.
- Peer coaching where one child supports another
- use of tracing paper, pencil grips, writing slopes etc as well as fine motor practice, looking at shapes in drawing, light pencil sketches, individual small sketches

8. Health and Safety

At Horwich Parish CE School Stacey Hargreaves is responsible for leading art, craft and design in a healthy and safe environment with reference to appropriate risk assessments for activities likely to incur possible risk. The teaching staff and art coordinator are responsible for the supervision of activities such as cutting with scissors or a paper-cutter and using glue guns safely. All art equipment is subject to maintenance and safety checks and any faulty equipment is to be reported to the art coordinator.

9. Resources

At Horwich Parish CE School there is a wide range of resources to support the teaching of art and design across the school.

Classrooms have a store of basic resources. Specialist resources and equipment are stored in the stock-cupboard and should be returned after use.

10. Role of the Coordinator

- To purchase and organise the appropriate art resources.
- To support colleagues in the teaching of art and design.
- To Keep up-to-date on the use of Art in the curriculum and regularly attend training for subject leaders held by the LA and feedback new information and ideas to staff.
- To monitor Teaching and Learning and the standards of children's work.
- To regularly review and update the Art Policy and contribute to the school's self-evaluation programme.

11. Assessment

At Horwich Parish CE School assessment is carried out in accordance with our Assessment Policy. On-going teacher assessment ensures that skills are developed and progress is made in the area of Art and Design. At the end of each unit children from Y1-Y6 are assessed against Key Learning Objectives identified by the Art and Topic Coordinator that ensure we track the progress of children and monitor and evaluate their achievement. In Reception, children are assessed by teacher observations against the Foundation Profile criteria.

The class teacher also evaluates each child's skills by their use of a sketchbook. All children are encouraged to develop the habit of using these, primarily for developing ideas for their work and for working out ideas, plans and designs; but also, for recording, exploring and storing visual information which can be readily retrieved and used as reference. The class teacher can look back and reflect on the content and judge which they can use to further develop ideas, skills and understanding. It is important to extend children's skills and allow them to practise regularly.

At Horwich Parish CE School displaying children's work well also plays a positive part in the appraisal of the Art and Design work in the school; this gives it value and reminds the children what has been achieved and enables them to share and talk about their work with others. As a form of real assessment, this gives the class teacher opportunities to focus on the different ways the children may have responded to the theme or starting point. Thus, the public display of Art and Design (and other curriculum areas) of each year group is much more than just a way of making the school look attractive; it also demonstrates the sequence and development of what has been learnt throughout the two key stages.

12. Equal Opportunities and Inclusion

At Horwich Parish CE School the curriculum for Art and Design will develop enjoyment of and commitment to stimulating the best possible progress and the highest attainment for all our pupils irrespective of social background, culture, race, gender, differences in ability and disabilities. All of our pupils have a secured entitlement to participate in the Art and Design Curriculum and our teaching approaches ensure the avoidance of stereotyping when planning work or organising groups. All the teaching staff agree that when using reference materials, they should reflect social and cultural diversity and provide positive images of race, gender and disability.

13. More Able Learners

More able learners will be identified as part of our formative and summative assessment procedures. We will provide for their needs through a framework of high quality first teaching which focuses on ensuring the children are challenged appropriately. In addition, we will focus on developing their learning behaviours, including, greater

reflection, problem solving and enquiry, making connections, higher order thinking skills and independent learning. The progress of more able learners will be rigorously tracked to ensure more able children reach their full potential.

14. Monitoring and Evaluation

At Horwich Parish CE School the Art Coordinator ensures that the curriculum has been covered and that there are no gaps and also monitors assessments and undertakes learning walks. Photographs of completed work and displays are to be kept digitally by the coordinator as a portfolio, in order to monitor and support the raising of standards in art within the school. The coordinator takes responsibility for addressing any needs or concerns that arise as a result of this monitoring. They triangulate evidence to support the development of the subject.

15. Disability Equality Impact Assessment

This policy has been written with reference to and in consideration of the school's Disability Equality Scheme. Assessment will include consideration of issues identified by the involvement of disabled children, staff and parents and any information the school holds on disabled children, staff and parents.
