Statement of intent

Lowton West Primary School is required to keep and process certain information about its staff members and pupils in accordance with its legal obligations under the Data Protection legislation.

The school may, from time to time, be required to share personal information about its staff or pupils with other organisations, mainly the LA, other schools and educational bodies, and potentially children's services.

This policy is in place to ensure all staff and governors are aware of their responsibilities and outlines how the school complies with the following core principles of the GDPR.

Organisational methods for keeping data secure are imperative, and Lowton West Primary School believes that it is good practice to keep clear practical policies, backed up by written procedures.

Please note: This policy has been updated following Brexit and the adopting of the GDPR into UK law as the UK GDPR.

Although schools must now have regard to the UK GDPR instead, there have been no significant changes to the content of the legislation beyond minor technical changes to ensure that it can function in a UK-only context.

- Information Commissioner's Office (2017) 'Overview of the General Data Protection Regulation (GDPR)'
 - Information Commissioner's Office (2017) 'Preparing for the General Data Protection Regulation (GDPR) 12 steps to take now'
 - DFE Guidance on cloud software services and the DFA
 - DFE Guidance on Information Sharing
- 1.3. This policy will be implemented in conjunction with the following other school policies:
- Use of Images in School Policy
 - IT security Policy
 - Freedom of Information Policy
 - Confidentiality Policy
 - Social Media Policy
 - Online Safety Policy
 - Safeguarding, Child Protection and Early Help Policy

2. Definitions

Automated Decision-Making (ADM): when a decision is made which is based solely on Automated Processing (including profiling) which produces legal effects or significantly affects an individual. The GDPR prohibits Automated Decision-Making (unless certain conditions are met) but not Automated Processing.

Automated Processing: any form of automated processing of Personal Data consisting of the use of Personal Data to evaluate certain personal aspects relating to an individual, in particular to analyse or predict aspects concerning that individual's performance at work, economic situation, health, personal preferences, interests, reliability, behaviour, location or movements. Profiling is an example of Automated Processing.

Company Personnel: all employees, workers [contractors, agency workers, consultants,] directors, volunteers, governors, members and others.

Consent: agreement which must be freely given, specific, informed and be an unambiguous indication of the Data Subject's wishes by which they, by a statement or by a clear positive action, signifies agreement to the Processing of Personal Data relating to them.

Data Controller: the person or organisation that determines when, why and how to process Personal Data. It is responsible for establishing practices and policies in line with the GDPR. We are the Data Controller of all Personal Data relating to our Company Personnel and Personal Data used in our business for our own commercial purposes.

Data Subject: a living, identified or identifiable individual about whom we hold Personal Data. Data Subjects may be nationals or residents of any country and may have legal rights regarding their Personal Data.

Data Privacy Impact Assessment (DPIA): tools and assessments used to identify and reduce risks of a data processing activity. DPIA can be carried out as part of Privacy by Design and should be conducted for all major system or business change programs involving the Processing of Personal Data.

Data Protection Officer (DPO): the person required to be appointed in specific circumstances under the GDPR. Where a mandatory DPO has not been appointed, this term means a data protection manager or other voluntary appointment of a DPO or refers to the Company data privacy team with responsibility for data protection compliance.

EEA: the 28 countries in the EU, and Iceland, Liechtenstein and Norway.

Explicit Consent: consent which requires a very clear and specific statement (that is, not just action).

General Data Protection Regulation (GDPR): the General Data Protection Regulation ((EU) 2016/679). Personal Data is subject to the legal safeguards specified in the GDPR.

Personal Data: any information identifying a Data Subject or information relating to a Data Subject that we can identify (directly or indirectly) from that data alone or in combination with other identifiers we possess or can reasonably access. Personal Data includes Sensitive Personal Data and Pseudonymised Personal Data but excludes anonymous data or data that has had the identity of an individual permanently removed. Personal data can be factual (for example, a name, email address, location or date of birth) or an opinion about that person's actions or behaviour. The UK GDPR applies to both automated personal data and to manual filing systems, where personal data is accessible according to specific criteria, as well as to chronologically ordered data and pseudonymised data e.g. key-coded.

Personal Data Breach: any act or omission that compromises the security, confidentiality, integrity or availability of Personal Data or the physical, technical, administrative or organisational safeguards that we or our third-party service providers put in place to protect it. The loss, or unauthorised access, disclosure or acquisition, of Personal Data is a Personal Data Breach.

Privacy by Design: implementing appropriate technical and organisational measures in an effective manner to ensure compliance with the GDPR.

Privacy Notices (also referred to as Fair Processing Notices) or Privacy Policies: separate notices setting out information that may be provided to Data Subjects when the Company collects information about them. These notices may take the form of general privacy statements applicable to a specific group of individuals (for example, employee privacy notices or pupil privacy notices) or they may be stand-alone, one time privacy statements covering Processing related to a specific purpose.

Processing or Process: any activity that involves the use of Personal Data. It includes obtaining, recording or holding the data, or carrying out any operation or set of operations on the data including organising, amending, retrieving, using, disclosing, erasing or destroying it. Processing also includes transmitting or transferring Personal Data to third parties.

Pseudonymisation or Pseudonymised: replacing information that directly or indirectly identifies an individual with one or more artificial identifiers or pseudonyms so that the person, to whom the data relates, cannot be identified without the use of additional information which is meant to be kept separately and secure.

Sensitive Personal Data: information revealing racial or ethnic origin, political opinions, religious or similar beliefs, trade union membership, physical or mental health conditions, sexual life, sexual orientation, biometric or genetic data, data concerning health, data concerning a person's sex life, data concerning a person's sexual orientation.

Sensitive personal data' does not include data about criminal allegations, proceedings or convictions. In the case of criminal offence data, schools are only able to process this if it is either:

- Under the control of official authority; or
- Authorised by domestic law.

The latter point can only be used if the conditions of the reason for storing and requiring the data fall into one of the conditions below:

- The processing is necessary for the purposes of performing or exercising obligations or rights which are imposed or conferred by law on the controller of the data subject in connection with employment, social security, social protection, health or social care purposes, public health and research.

2.1 Applicable data

For the purpose of this policy, personal data refers to information that relates to an identifiable, living individual, including information such as an online identifier, e.g. an IP address. The GDPR applies to both automated personal data and to manual filing systems, where personal data is accessible according to specific criteria, as well as to chronologically ordered data and pseudonymised data, e.g. key-coded.

Sensitive personal data is referred to in the GDPR as 'special categories of personal data', which are broadly the same as those in the Data Protection Act (DPA) 1998. These specifically include the processing of genetic data, biometric data and data concerning health matters.

Senior Leadership Team (SLT): includes: Headteacher, Deputy Head, KS1 Assistant Head, KS2 Assistant Head, SBM.

3. Roles and Responsibilities

3.1. The Data Controller

- 3.1.1. The school, as the corporate body, is the data controller.
- 3.1.2. The Governing Body therefore has overall responsibility for ensuring that records are maintained, including security and access arrangements in accordance with regulations and that the school is complying with its obligations under the General Data Protection Regulation.
- 3.1.3. The SLT will deal with the day-to-day matters relating to data protection.
- 3.1.4. The school business manager is responsible for processing personal information relating to pupils, staff, volunteers, governors and visitors on the school's behalf.
- 3.1.5. On occasion, personal information may be processed by outside organisations involved in data processing. By involving another organisation in data processing, the school increases certain risks. The security of the personal information is covered in a formal contract between the school and any outside organisation. See appendix 1 for an example of the formal contract used.
- 3.1.6. The SLT will ensure that all staff are aware of their data protection obligations, and oversee any queries related to the storing or processing of personal data. Staff are responsible for ensuring that they collect and store any personal data in accordance with this policy.
- 3.1.7. All staff and governors will sign a privacy standard to acknowledge that they understand and will follow the procedures set by the school on how personal data is to be handled.
- 3.1.8. The school is registered as a data controller with the Information Commissioner's Office and renews this registration annually.
- 3.1.9. The SLT is responsible for ensuring personal information relating to pupils, staff, volunteers, governors and visitors is processed correctly by the relevant staff.

3.2. The Data Protection Officer (DPO)

3.2.1. A DPO will be appointed in order to:

- Inform and advise the school and its employees about their obligations to comply with the GDPR and other data protection laws.
- Monitor the school's compliance with the UK GDPR and other laws, including managing internal data protection activities, advising on data protection impact assessments, conducting internal audits, and providing the required training to staff members.
- Be the first point of contact with the ICO and data subjects

3.2.2. The school must ensure that the appointed DPO's day to day duties are compatible with the duties of the DPO and do not lead to a conflict of interests.

3.2.3. The individual appointed as DPO will have professional experience and knowledge of data protection law, particularly that in relation to schools.

3.2.4. The DPO will report to the highest level of management at the school, which is the Headteacher. The Headteacher will pass on all DPO reports to the Governing Body.

3.2.5. The DPO will operate independently and will not be dismissed or penalised for performing their task.

3.2.6. Sufficient resources will be provided to the DPO to enable them to meet their GDPR obligations.

3.2.7. The school has appointed Judicium Consulting Limited as their DPO.

4. Principles

4.1. The school adhere to the Principles relating to Processing of Personal Data set out in the UK GDPR which requires personal data to be:

- Processed lawfully, fairly and in a transparent manner in relation to individuals.
- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes.
- Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.
- Accurate and, where necessary, kept up-to-date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay.
- Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods, insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes, subject to implementation of the appropriate technical and organisational measures required by the UK GDPR in order to safeguard the rights and freedoms of individuals.
- Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against

accidental loss, destruction or damage, using appropriate technical or organisational measures.

4.2. The UK GDPR also requires that “the controller shall be responsible for, and able to demonstrate, compliance with the principles”.

5. Accountability

5.1. Lowton West Primary School will implement appropriate technical and organisational measures to demonstrate that data is processed in line with the principles set out in the UK GDPR.

5.2. The school will provide comprehensive, clear and transparent privacy policies.

- Name and details of the organisation
- Purpose(s) of the processing
- Description of the categories of individuals and personal data
- Retention schedules
- Categories of recipients of personal data
- Storage locations
- Description of technical and organisational security measures
- Details of transfers to third parties, including documentation of the transfer mechanism safeguards in place

5.4. In order to create such records, data maps should be created which should include the details set out above together with appropriate data flows.

5.5. The school will implement measures that meet the principles of data protection by design and data protection by default, such as:

- Data minimisation.
- Pseudonymisation.
- Transparency.
- Allowing individuals to monitor processing.
- Continuously creating and improving security features.

5.6. The school will also document other aspects of compliance with the UK GDPR and Data Protection Act where this is deemed appropriate in certain circumstance by the DPO, including the following:

- Information required for privacy notices, e.g. the lawful basis for the processing
- Records of consent
- Controller-processor contracts
- The location of personal data

- Records of personal data breaches

6. Lawful processing

6.1. The legal basis for processing data will be identified and documented prior to data being processed.

- 6.2. Under the GDPR, data will be lawfully processed under the following conditions:
- The consent of the data subject has been obtained.
 - Processing is necessary for:
 - Compliance with a legal obligation.
 - The performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.
 - For the performance of a contract with the data subject or to take steps to enter into a contract.
 - Protecting the vital interests of a data subject or another person.
 - For the purposes of legitimate interests pursued by the controller or a third party, except where such interests are overridden by the interests, rights or freedoms of the data subject. (This condition is not available to processing undertaken by the school in the performance of its tasks.)
- 6.3. Sensitive data will only be processed under the following conditions:
- Explicit consent of the data subject.
 - Processing carried out by a not-for-profit body with a political, philosophical, religious or trade union aim provided the processing relates only to members or former members (or those who have regular contact with it in connection with those purposes) and provided there is no disclosure to a third party without consent.
 - Processing relates to personal data manifestly made public by the data subject.

 - Archiving purposes in the public interest, or scientific and historical research purposes or statistical purposes in accordance with a basis in law.
- 6.4 For personal data to be processed fairly, data subjects must be made aware:
- That the personal data is being processed.
 - Why the personal data is being processed

- What the lawful basis is for that processing.
- Whether the personal data will be shared, and if so, with whom.
- The existence of the data subject's rights in relation to the processing of that personal data.
- The right of the data subject to raise a complaint with the ICO in relation to any processing.

There may be circumstances where it is considered necessary to process personal data or special category personal data in order to protect the vital interests of a data subject. This may include medical emergencies where it is not possible for the data subject to give consent to the processing. In such circumstances, the DPO will be consulted and a decision made only after seeking further clarification.

- Where the school relies on:
 - 'Performance of contract' to process a child's data, the school considers the child's competence to understand what they are agreeing to, and to enter into a contract.
 - 'Legitimate interests' to process a child's data, the school takes responsibility for identifying the risks and consequences of the processing, and puts age-appropriate safeguards in place.
 - Consent to process a child's data, the school ensures that the requirements outlined in section 8 are met, and the school does not exploit any imbalance of power in the relationship between the school and the child.

In all other instances with regards to obtaining consent, an appropriate age of consent is considered by the school on a case-by-case basis, taking into account the requirements outlined above.
- 8.9. When pupils and staff join the school, the staff member or pupil (or, where appropriate, pupil's parent) will be required to complete a consent form for personal data use. - 9.9. Where data is not obtained directly from the data subject, information regarding the categories of personal data that the school holds, the source that the personal data originates from and whether it came from publicly accessible sources, will be provided.
- 9.10. This information will be supplied:

- 10.3. The school will verify the identity of the person making the request before any information is supplied.
- 10.4. A copy of the information will be supplied to the individual free of charge; however, the school may impose a 'reasonable fee' to comply with requests that are manifestly unfounded or excessive or if an individual requests further copies of the same information.
- 10.5. Where a SAR has been made electronically, the information will be provided in a commonly used electronic format.
- 10.6. Where a SAR has been made for information held about a child, the school will evaluate whether the child is capable of fully understanding their rights. If the school determines the child can understand their rights, it will respond directly to the child.
- 10.7. Where a request is manifestly unfounded, excessive or repetitive, a reasonable fee will be charged.
- 10.8. All fees will be based on the administrative cost of providing the information.
- 10.9. All requests will be responded to without delay and at the latest, within one month of receipt.
- 10.10. In the event of numerous or complex requests, the period of compliance will be extended by a further two months. The individual will be informed of this extension, and will receive an explanation of why the extension is necessary, within one month of the receipt of the request.

The individual will be informed of this decision and the reasoning behind it, as well as their right to complain to the supervisory authority and to a judicial remedy, within one month of the refusal.
- 10.12. In the event that a large quantity of information is being processed about an individual, the school will ask the individual to specify the information the request is in relation to.
- 10.13. The school will ensure that information released in response to a SAR does not disclose personal data of another individual. If responding to the SAR in the usual way would disclose such data, the school will:

- Omit certain elements from the response if another individual's personal data would be disclosed otherwise.
- Reject requests that cannot be fulfilled without disclosing another individual's personal data, unless that individual consents or it is reasonable to comply without consent.
- Explain to the individual who made the SAR why their request could not be responded to in full.

- 11.4. Requests for rectification will be responded to within one month; this will be extended by two months where the request for rectification is complex.
- 11.5. Where no action is being taken in response to a request for rectification, or where the request has been investigated and the data has been found to be accurate, the school will explain the reason for this to the individual, and will inform them of their right to complain to the supervisory authority and to a judicial remedy.
- 11.6. The accuracy of any personal data must be checked at the point of collection and at regular intervals afterwards. Measures must be taken to destroy or amended inaccurate or out of date personal data.
- 11.7. Requests for rectification will be investigated and resolved, where appropriate, free of charge; however, the school may impose a 'reasonable fee' to cover the administrative costs of complying with requests that are manifestly unfounded or excessive or if an individual makes multiple requests at once. The school reserves the right to refuse to process requests for rectification if they are manifestly unfounded or excessive or if exemptions apply.
- 11.8. The school will take reasonable steps to ensure that data is accurate or is rectified if inaccurate, implementing a proportional response for data that has a significant impact on the individual, e.g. if significant decisions are made using that data. The school will restrict processing of the data in question whilst its accuracy is being verified, where possible.
- 11.9. Members of staff and parents/carers are responsible for checking that any information that they provide to the school, in connection with their employment or in regard to a child, is accurate and up-to-date.

As a child may not fully understand the risks involved in the processing of data when consent is obtained, special attention will be given to existing situations where a child has given consent to processing and they later request erasure of the data, regardless of age at the time of the request.
- 12.5. Where personal data has been disclosed to third parties, they will be informed about the erasure of the personal data, unless it is impossible or involves disproportionate effort to do so.
- 12.6. Where personal data has been made public within an online environment, the school will inform other organisations who process the personal data to erase links to and copies of the personal data in question.
- 12.7. The school will comply with the request for erasure without undue delay and at the latest within one month of receipt of the request.
- 12.8. Requests for erasure will be handled free of charge; however, the school may impose a 'reasonable fee' to cover the administrative costs of complying with requests that are manifestly unfounded or excessive or if an individual makes multiple requests at once

13. The right to restrict processing

- 13.1. Individuals have the right to block or suppress the school's processing of personal data.
- 13.2. In the event that processing is restricted, the school will store the personal data, but not further process it, guaranteeing that just enough information about the individual has been retained to ensure that the restriction is respected in future.
- 13.3. The school will restrict the processing of personal data in the following circumstances:

- Where an individual contests the accuracy of the personal data, processing will be restricted until the school has verified the accuracy of the data
 - Where an individual has objected to the processing and the school is considering whether their legitimate grounds override those of the individual
 - Where processing is unlawful and the individual opposes erasure and requests restriction instead
 - Where the school no longer needs the personal data but the individual requires the data to establish, exercise or defend a legal claim
- 13.4. If the personal data in question has been disclosed to third parties, the school will inform them about the restriction on the processing of the personal data, unless it is impossible or involves disproportionate effort to do so.
- 13.5. The school will inform individuals when a restriction on processing has been lifted.
- 13.6. Where the school is restricting the processing of personal data in response to a request, it will make that data inaccessible to others, where possible, e.g. by temporarily moving the data to another processing system or unpublishing published data from a website.
- 13.7. The school reserves the right to refuse requests for restricting processing if they are manifestly unfounded or excessive or if exemptions apply. The individual will be informed of this decision and the reasoning behind it, as well as their right to complain to the supervisory authority and to a judicial remedy, within one month of the refusal.

14. The right to data portability

- 14.1. Individuals have the right to obtain and reuse their personal data for their own purposes across different services.
- 14.2. Personal data can be easily moved, copied or transferred from one IT environment to another in a safe and secure manner, without hindrance to usability.
- 14.3. The right to data portability only applies in the following cases:
- To personal data that an individual has provided to a controller
 - Where the processing is based on the individual's consent or for the performance of a contract
 - When processing is carried out by automated means
- 14.4. Personal data will be provided in a structured, commonly used and machine-readable form.
- 14.5. The school will provide the information free of charge.
- 14.6. Where feasible, data will be transmitted directly to another organisation at the request of the individual.
- 14.7. The school is not required to adopt or maintain processing systems which are technically compatible with other organisations.
- 14.8. In the event that the personal data concerns more than one individual, the school will consider whether providing the information would prejudice the rights of any other individual.
- 14.9. The school will respond to any requests for portability within one month.
- 14.10. Where the request is complex, or a number of requests have been received, the timeframe can be extended by two months, ensuring that the individual is informed of the extension and the reasoning behind it within one month of the receipt of the request.

- 14.11. Where no action is being taken in response to a request, the school will, without delay and at the latest within one month, explain to the individual the reason for this and will inform them of their right to complain to the supervisory authority and to a judicial remedy.

15. The right to object

- 15.1. The school will inform individuals of their right to object at the first point of communication, and this information will be outlined in the privacy notice and explicitly brought to the attention of the data subject, ensuring that it is presented clearly and separately from any other information.
- 15.2. Individuals have the right to object to the following:
- Processing based on legitimate interests or the performance of a task in the public interest
 - Direct marketing
 - Processing for purposes of scientific or historical research and statistics.
- 15.3. Where personal data is processed for the performance of a legal task or legitimate interests:
- An individual's grounds for objecting must relate to his or her particular situation.
 - The school will stop processing the individual's personal data unless the processing is for the establishment, exercise or defence of legal claims, or, where the school can demonstrate compelling legitimate grounds for the processing, which override the interests, rights and freedoms of the individual.
 - The school will respond to objections proportionally, granting more weight to an individual's objection if the processing of their data is causing them substantial damage or distress.
- 15.4. Where personal data is processed for direct marketing purposes:
- The school will stop processing personal data for direct marketing purposes as soon as an objection is received.
 - The school cannot refuse an individual's objection regarding data that is being processed for direct marketing purposes.
 - The school will retain only enough information about the individual to ensure the individual's preference not to receive direct marketing is respected in future.
- 15.5. Where personal data is processed for research purposes:
- The individual must have grounds relating to their particular situation in order to exercise their right to object.
 - Where the processing of personal data is necessary for the performance of a public interest task, the school is not required to comply with an objection to the processing of the data.
- 15.6. Where the processing activity is outlined above, but is carried out online, the school will offer a method for individuals to object online.
- 15.7. The DPO will ensure that details are recorded for all objections received, including those made by telephone or in person, and will clarify each objection with the individual making the request to avoid later disputes or misunderstandings. The school will respond to all objections without undue delay and within one month of

receiving the objection; this may be extended by a further two months if the request is complex or repetitive.

- 15.8. Where no action is being taken in response to an objection, the school will, without delay and at the latest within one month, explain to the individual the reason for this and will inform them of their right to complain to the supervisory authority and to a judicial remedy.

16. Automated decision making and profiling

- 16.1. Individuals have the right not to be subject to a decision when:
- It is based on automated processing, e.g. profiling.
 - It produces a legal effect or a similarly significant effect on the individual.
- 16.2. The school will take steps to ensure that individuals are able to obtain human intervention, express their point of view, and obtain an explanation of the decision and challenge it.
- 16.3. When automatically processing personal data for profiling purposes, the school will ensure that the appropriate safeguards are in place, including:
- Ensuring processing is fair and transparent by providing meaningful information about the logic involved, as well as the significance and the predicted impact.
 - Using appropriate mathematical or statistical procedures.
 - Implementing appropriate technical and organisational measures to enable inaccuracies to be corrected and minimise the risk of errors.
 - Securing personal data in a way that is proportionate to the risk to the interests and rights of the individual and prevents discriminatory effects.
- 16.4. Automated decisions must not concern a child or be based on the processing of sensitive data, unless:
- The school has the explicit consent of the individual.
 - The processing is necessary for reasons of substantial public interest on the basis of Union/Member State law.
- 16.5. The School will only ever conduct solely automated decision making with legal or similarly significant effects if the decision is:
- Necessary for entering into or performance of a contract.
 - Authorised by law.
 - Based on the individual's explicit consent.
- 16.6. The School will conduct a DPIA for automated decision making to mitigate risk of errors, bias and discrimination.
- 16.7. The School will ensure that individuals concerned are given specific information about the processing and an opportunity to challenge or request a review of the decision.

17. Data Protection by design and privacy impact assessments

- 17.1. The school will act in accordance with the UK GDPR by adopting a privacy by design approach and implementing technical and organisational measures which demonstrate how the school has considered and integrated data protection into processing activities. In line with the data protection by default approach, the school

will ensure that only data that is necessary to achieve its specific purpose will be processed.

- 17.2. The School will implement a data protection by design and default approach by using a number of methods, including, but not limited to:
- Considering data protection issues as part of the design and implementation of systems, services and practices.
 - Making data protection an essential component of the core functionality of processing systems and services.
 - Automatically protecting personal data in school ICT systems.
 - Implementing basic technical measures within the school network and ICT systems to ensure data is kept secure.
 - Promoting the identity of the DPO as a point of contact.
 - Ensuring that documents are written in plain language so individuals can easily understand what is being done with personal data.
- 17.3. Data protection impact assessments (DPIAs) will be used to identify the most effective method of complying with the school's data protection obligations and meeting individuals' expectations of privacy.
- 17.4. DPIAs will allow the school to identify and resolve problems at an early stage, thus reducing associated costs and preventing damage from being caused to the school's reputation which might otherwise occur.
- 17.5. A DPIA will be carried out when using new technologies or when the processing is likely to result in a high risk to the rights and freedoms of individuals.
- 17.6. A DPIA will be used for more than one project, where necessary.
- 17.7. High risk processing includes, but is not limited to, the following:
- Systematic and extensive processing activities, such as profiling
 - Large scale processing of special categories of data or personal data which is in relation to criminal convictions or offences
 - The use of CCTV.
- 17.8. The school will ensure that all DPIAs include the following information:
- A description of the processing operations and the purposes
 - An assessment of the necessity and proportionality of the processing in relation to the purpose
 - An outline of the risks to individuals
 - The measures implemented in order to address risk
- 17.9. Where a DPIA indicates high risk data processing, the school will consult the ICO to seek its opinion as to whether the processing operation complies with the GDPR.

18. Data breaches

- 18.1. The term 'personal data breach' refers to a breach of security which has led to the destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.
- 18.2. The Headteacher will ensure that all staff members are made aware of, and understand, what constitutes a data breach as part of their induction/ refresher training.
- 18.3. Where a breach is likely to result in a risk to the rights and freedoms of individuals, the relevant supervisory authority will be informed.
- 18.4. All notifiable breaches will be reported to the relevant supervisory authority within 72 hours of the school becoming aware of it.

- 18.5. All breaches must be reported to the school DPO immediately.
- 18.6. The risk of the breach having a detrimental effect on the individual, and the need to notify the relevant supervisory authority, will be assessed on a case-by-case basis.
- 18.7. In the event that a breach is likely to result in a high risk to the rights and freedoms of an individual, the school will notify those concerned directly.
- 18.8. A 'high risk' breach means that the threshold for notifying the individual is higher than that for notifying the relevant supervisory authority.
- 18.9. In the event that a breach is sufficiently serious, the public will be notified without undue delay.
- 18.10. Effective and robust breach detection, investigation and internal reporting procedures are in place at the school, which facilitate decision-making in relation to whether the relevant supervisory authority or the public need to be notified.
- 18.11. All evidence relating to the potential Personal data breach must be preserved.
- 18.12. Within a breach notification to the supervisory authority, the following information will be outlined:
 - The nature of the personal data breach, including the categories and approximate number of individuals and records concerned
 - The name and contact details of the DPO
 - An explanation of the likely consequences of the personal data breach
 - A description of the proposed measures to be taken to deal with the personal data breach
 - Where appropriate, a description of the measures taken to mitigate any possible adverse effects
- 18.13. Failure to report a breach when required to do so may result in a fine, as well as a fine for the breach itself.
- 18.14. Where notifying an individual about a breach to their personal data, the school will provide specific and clear advice to individuals on the steps they can take to protect themselves and their data, where possible and appropriate to do so.
- 18.15. The school will ensure all facts regarding the breach, the effects of the breach and any decision-making processes and actions taken are documented in line with the UK GDPR accountability principle and in accordance with the Records Management Policy.
- 18.16. The school with the DPO will work to identify the cause of the breach and assess how a recurrence can be prevented, e.g. by mandating data protection refresher training where the breach was a result of human error.

19. Data security and Confidentiality

- 19.1. The school will ensure data security is maintained by protecting the confidentiality, integrity and availability of the Personal Data, defined as follows:
 - Confidentiality means that only people who have a need to know and are authorised to use the Personal Data can access it.
 - Integrity means that Personal Data is accurate and suitable for the purpose for which it is processed.
 - Availability means that authorised users are able to access the Personal Data when they need it for authorised purposes.
- 19.2. Confidential paper records will be kept in a locked filing cabinet, drawer or safe, with restricted access.

- 19.3. Confidential paper records will not be left unattended or in clear view anywhere with general access.
- 19.4. Digital data is coded, encrypted or password-protected, both on a local hard drive and on a network drive that is regularly backed up off-site.
- 19.5. Where data is saved on removable storage or a portable device, the device will be kept in a locked filing cabinet, drawer or safe when not in use.
- 19.6. Memory sticks will not be used to hold personal information unless they are password-protected and fully encrypted.
- 19.7. All electronic devices are password-protected to protect the information on the device in case of theft.
- 19.8. Where possible, the school enables electronic devices to allow the remote blocking or deletion of data in case of theft.
- 19.9. Where possible, staff and governors will not use their personal laptops or computers for school purposes.
- 19.10. All necessary members of staff are provided with their own secure login and password, and every computer regularly prompts users to change their password.
- 19.11. Emails containing sensitive or confidential information are password-protected if there are unsecure servers between the sender and the recipient.
- 19.12. Circular emails to parents are sent blind carbon copy (bcc), so email addresses are not disclosed to other recipients. In most cases, the school's parent mailing system will be used.
- 19.13. When sending confidential information by fax, staff will always check that the recipient is correct before sending.
- 19.14. Where personal information that could be considered private or confidential is taken off the premises, either in electronic or paper format, staff will take extra care to follow the same procedures for security, e.g. keeping devices under lock and key. The person taking the information from the school premises accepts full responsibility for the security of the data.
- 19.15. Before sharing data, all staff members will ensure:
 - They are allowed to share it.
 - That adequate security is in place to protect it.
 - Who will receive the data has been outlined in a privacy notice.
- 19.16. Under no circumstances are visitors allowed access to confidential or personal information. Visitors to areas of the school containing sensitive information are supervised at all times.
- 19.17. The physical security of the school's buildings and storage systems, and access to them, is reviewed on a termly basis. If an increased risk in vandalism/burglary/theft is identified, extra measures to secure data storage will be put in place.
- 19.18. Lowton West Primary School takes its duties under the GDPR seriously and any unauthorised disclosure may result in disciplinary action.
- 19.19. The Headteacher and school business manager (SBM) are responsible for continuity and recovery measures are in place to ensure the security of protected data.
- 19.20. The school will regularly test, assess and evaluate the effectiveness of any and all measures in place for data security.
- 19.21. When disposing of data, paper documents will be shredded and digital storage devices will be physically destroyed when they are no longer required. ICT assets

will be disposed of in accordance with the ICO's guidance on the disposal of ICT assets.

- 19.22. The School holds the right to take the necessary disciplinary action against a staff member if they believe them to be in breach of the above security measures.

20. Cloud Software Services

- 20.1. Responsibility for all areas of data protection compliance still rests with the school even when using cloud based software.

- 20.2. The key obligations that need to be addressed under GDPR are:

- Data Processing – The school must ensure a contract and data processing agreement is in place with the supplier to ensure they comply.
- Data Confidentiality – The supplier must provide to the school sufficient guarantees about the technical and organisational security measures governing the processing to be carried out.
- Data Integrity – Data integrity is defined as "the property that data is authentic and has not been maliciously or accidentally altered during processing, storage or transmission" Suppliers need to confirm compliance
- Service Availability – There may be accidental loss of network connectivity between the school and the service provider. Therefore, the school should ensure measures are in place to cope with the possibility of disruptions such as backup internet links (depending on level of risk)
- Data Transfers beyond the European Economic Area (EEA) – Suppliers should confirm they meet the requirements of the GDPR re. permitted transfers of personal data beyond the EEA.
- Use of Advertising – The school will not permit any cloud based software provider to engage in advertisement related data mining/profiling activities without their consent.

- 20.3. The School before subscribing and using any cloud based software will ensure its suppliers comply with the GDPR and its main provisions. This is carried out by asking the supplier to complete a self-certification checklist which the Department for Education is currently facilitating. In some cases, the school may carry out a Privacy Impact Assessment (see DFE guidance on code of practise on PIAS)

21. Publication of information

- 21.1. Lowton West Primary School publishes a publication scheme on its website outlining classes of information that will be made routinely available, including:

- Policies and procedures
- Minutes of meetings

- Financial information

- 21.2. Classes of information specified in the publication scheme are made available quickly and easily on request.

- 21.3. Lowton West Primary School will not publish any personal information, including photos, on its website without the permission of the affected individual.

- 21.4. When uploading information to the school website, staff are considerate of any metadata or deletions which could be accessed in documents and images on the site.

22. CCTV and photography

- 22.1. The school understands that recording images of identifiable individuals constitutes as processing personal information, so it is done in line with data protection principles.
- 22.2. The school notifies all pupils, staff and visitors of the purpose for collecting CCTV images via notice boards, letters and/ or emails.
- 22.3. Cameras are only placed where they do not intrude on anyone's privacy and are necessary to fulfil their purpose.
- 22.4. All CCTV footage will be kept for six months for security purposes; the Headteacher is responsible for keeping the records secure and allowing access.
- 22.5. The school will always indicate its intentions for taking photographs of pupils and will retrieve permission before publishing them.
- 22.6. If the school wishes to use images/video footage of pupils in a publication, such as the school website, prospectus, or recordings of school plays, written permission will be sought for the particular usage from the parent of the pupil.
- 22.7. Precautions, as outlined in the Use of Images in School Policy, are taken when publishing photographs of pupils, in print, video or on the school website.

- 23.1. Data will not be kept for longer than is necessary.
- 23.2. Unrequired data will be deleted as soon as practicable. This includes requiring third parties to delete such data where applicable.
- 23.3. The school will maintain retention policies and procedures to ensure Personal Data is deleted after a reasonable time for the purposes for which it was being held, unless a law requires such data to be kept for a minimum time.
- 23.4. Some educational records relating to former pupils or employees of the school may be kept for an extended period for legal reasons, but also to enable the provision of references or academic transcripts.
- 23.5. Paper documents will be shredded or pulped, and electronic memories scrubbed clean or destroyed, once the data should no longer be retained.

24. DBS Data

- 24.1. All data provided by the DBS will be handled in line with data protection legislation; this includes electronic communication.
- 24.2. Data provided by the DBS will never be duplicated.
- 24.3. Any third parties who access DBS information will be made aware of the data protection legislation, as well as their responsibilities as a data handler.

25. Training and Audit

- 25.1. All members of staff, including governors will receive training to enable them to comply with data privacy laws as part of their induction.
- 25.2. The training is reinforced at regular intervals throughout their employment or term as governor.

- 25.3. A regular review of all the systems and processes in place will take place to ensure compliance with UK GDPR and that adequate governance controls and resources are in place to ensure proper use and protection of personal data.

26. Policy review

- 26.1. This policy is reviewed annually by the Headteacher, SBM and the Governing body.
- 26.2. The next scheduled review date for this policy is May 2027.
