

HUMAN & PHYSICAL GEOGRAPHY

Fairtrade

Fairtrade is there to help the producer receive a guaranteed fair price for whatever he or she is selling meaning their quality of life should improve. You may have seen the Fairtrade logo on products at the supermarket. These products cost a little more but many people think this is a small price to pay to help people all over the world live a better life. Fairtrade also sets minimum standards for pay and work conditions. Products include tea, coffee, chocolate and sugar

Energy Distribution

Fossil Fuel Energy Sources

Uranium: Asia and Europe have the greatest reserves

Oil: the Middle East has the greatest number of reserves

Coal: North America, Australia, Asia and Europe have the greatest reserves.

Natural gas: the Middle East and Europe has the greatest reserves

Energy Distribution

Minerals, water, soil, vegetation, animals, air and sunlight are all needed to create important resources such as fuel, food, clothing and shelter however some places have more than others.

Water Distribution

Water scarcity - lack of reliable source of adequate quality water to meet the demands of everyone.

Water security - having a reliable source of adequate quality water to meet the demands of everyone (to maintain health, food and the economy)

Trading

Trade is the way people all around the world buy and sell goods or services.

Export: a product we sell to other countries who can't or don't make enough of the product that is needed.

Import: a product we buy from other countries because we can't or don't make enough of the product that we need.

Land Use

Land use is a term used to describe the function of the land. Land use can vary from place to place.

Rural Area - In rural areas, land can be used for forestry and farming - countryside's

Urban Area - In urban areas, land can be used for industry or housing - towns, cities

A **physical feature** is something which is **natural** - it happens naturally E.g. land, water within a land, soil

A **human feature** is something man - made or it was made by a **human** being e.g. buildings

Vocabulary

Physical Feature	Land Use	Agriculture
Human Feature	Rural Areas	Industrial
Water scarcity	Urban Areas	Residential area
Water security	Housing	Energy Distribution
Fair Trade	Export Trading	Import Trading
