

Physical Development

We will use the story 'Elmer' and familiar nursery rhymes to develop our talk for writing – adding actions and repeating familiar phrases.

Personal, Social and Emotional Development

We will continue to learn how to be a good friend and how to share our toys. We will use our visual timetable to talk about where we have played and where we will play next.

Understanding the World

We will celebrate the festivals of light - Diwali, and Christmas. We will use a paint Program on the IWB to create a firework picture.

Our Autumn 2 Topic in Nursery is Colour and Light.

We will experiment with Symbols and marks to represent ideas of number. We will count each day. We will use words to describe position and focus on our shape of the week

Mathematical Development

The children will use paint, clay and collage materials to produce their own paintings and models. They will help to create a carwash outside to develop their role play. They will have a weekly music lesson with Mrs Seal.

The children will be doing outdoor games with Mr. Hudson. They will be helped to manage their own coats. They will continue to explore the outside area using the trikes, scooters and balance bikes.

Communication, Language and Literacy

Expressive Arts and Design
