Subject: Welcome to Languagenut – Supporting Your Child’s Language Learning

Dear Parent/Guardian,

I’m pleased to advise that this year the MFL department has invested in **Languagenut**, an online language learning platform designed to help pupils succeed in Spanish. Over the next week, pupils will be provided with a unique login and password and we are asking for your support in helping them getting set up at home.

Here’s how to get started:

1. Search for ‘**Languagenut**’ on Google or visit www.languagenut.com or download the free iPad app.
2. Click on ‘**Login**’ (located at the top right or middle right of the page).
3. Enter the personal login details provided to your child.

Languagenut allows pupils to practise vocabulary, phrases, grammar, and exam skills at home, building understanding and independence. As you may know, regular practice is key to learning a language successfully!

To assign work, track progress, and enable participation in a global league table, the platform requires your child’s name. Please rest assured that **Languagenut** uses this information solely to provide the service and does **not** advertise, share, or sell any personal data. You can read more about their privacy policy [here](#).

If possible, I encourage you to explore the site together with your child to help them get started. They’ll be able to review topics covered in class and take charge of their own learning at their own pace.

While **Languagenut** works on all browsers, the team recommends **Google Chrome** for the best experience.

If you have any questions or feedback, please don’t hesitate to get in touch.

Best regards,

Louise Walsh
