Why don't you try a Maths Treasure Hunt?

Here's how:

- Write simple maths problems (like $5 + 3$ or $10 - 4$) on paper.
- Hide them around the house in places your child can find.
- Each correct answer leads to a clue about where to look next — for example, "If $5 + 3 = 8$, go to the place where you eat at 6pm!"

Finish the hunt with a small prize or a high-five!

- You can make it trickier by using multiplication or reasoning problems

Why don't you try...

Greenhill News

This week in assembly, we've been learning about how people show emotions in different ways. Some may smile or talk when they're happy, while others stay quiet. We've encouraged children to think about how others might feel inside, even if it doesn't show on the outside, and to be kind, patient and ready to listen.

With fireworks season approaching, we've also discussed how to stay safe. Children were reminded to always have an adult present when using fireworks or sparklers, to stand well back, and to never return to a lit firework. We've talked about wearing gloves with sparklers, keeping pets indoors, and being considerate of neighbours, as loud noises and bright lights can be upsetting for some people and animals.

Reminders

Please keep safe if you are attending any bonfire and firework displays
