# Holden Clough Newsletter

## This week in 6AH

6AH have had an exciting and productive week of learning in Science! This week, we have been exploring the fascinating concepts of refraction and the ways in which mirrors can be used. The students have engaged in hands-on investigations, observing how light changes direction and reflects, and have developed a deeper understanding of these important scientific principles. It has been wonderful to see their curiosity and enthusiasm in action as they experiment and ask thoughtful questions!
