

# Autumn 2: Identifying Animals

## What do I already know?

- I know how to identify certain animals.
- I can describe and comment on different animals.
- I know the key features of the life cycle of certain animals.

## Key facts I will learn:

- To identify and name a variety of common UK mammals.
- To identify and compare a variety of common UK birds and reptiles.
- To identify and compare a variety of common UK fish and amphibians.
- To understand the difference between carnivores, herbivores and omnivores.

## Key vocabulary

### **Pet**

A pet is an animal that people keep in their home.

### **Mammal**

A mammal is an animal that breathes air, has a backbone, and grows hair.

### **Amphibian**

Most of the animals known as amphibians can live on land or in water.

### **Reptile**

A reptile is an animal that has scales instead of hair or feathers.

### **Carnivore**

A carnivore is an animal that eats only meat.

### **Herbivore**

A herbivore is an animal that eats only plants.

### **Omnivore**

An omnivore is an animal that eats both plants and meat.
