Year 2 - Autumn 2

Knowledge Organiser for **Geography**

Map Makers

What I should already know:

That there are 7 continents – Asia, Africa, North America, South America, Antarctica, Europe and Australasia.

That there are 5 oceans – Indian Ocean, Atlantic Ocean, Pacific Ocean, Southern Ocean and Arctic Ocean.

That there are 5 oceans – Indian Ocean, Atlantic Ocean, Pacific Ocean, Southern Ocean and Arctic Ocean.

What I will learn:

Walt 1: give and follow directions.

Walt 2: use an atlas.

Walt 3: plot a journey on a map.

Walt 4: explore different types of maps.

Walt 5: plan a journey.

Walt 6: draw a map.

Key facts to retain:

- The four main compass directions are **North, East, South and West.**
- Directions tell us how to get from one place to another.
- A destination is the place we want to reach.
- An atlas helps us find out about places.
- Symbols can show places such as schools, parks and shops.
- A road map shows roads and routes.
- A world map shows the continents and oceans.
- A map is a drawing of a place, usually viewed from above.

Atlas	An atlas is a collection of maps of the Earth. An atlas shows maps of continents, countries and features such as oceans, rivers, mountains and lakes.
Map	Maps are images of a place, usually drawn from above, that can help you find where you are and where you are going.
Compass	A tool which points out directions, such as North, South, East and West.
Satnav	A system that uses information from satellites to find the best way of getting to a place.
Destination	The place where someone is going or where something is being sent to.
Continent	A continent is a very large landmass e.g. Europe.
Ocean	An ocean is a very large area of salt water. Most of the Earth is covered in ocean.
