My Body

What We Will Learn

Our body has different parts that help us do different things.
We have five senses: sight, hearing, smell, taste and touch.
Our senses help us find out about the world around us.

Key Vocabulary	
senses	Humans have senses that help us to understand the world around us.
sight	Seeing things around you using your eyes.
hearing	Listening to sounds using your ears.
touch	Touch uses your skin to feel things.
taste	The sense of taste uses your tongue to see what food tastes like.
smell	When you smell something, you use your nose.

13 SHARING THOUGHTS FREELY

24 HEALTH, WATER, FOOD, ENVIRONMENT

What We Already Know

- Recognise and name familiar body parts
- Explore the world using our senses
- Move in different ways and develop coordination
- Explore similarities and differences between people
