

digital device	online	private information	rule
			
Something that can connect to the internet, like a tablet or computer.	Using the internet.	Something about you that is not for everyone to know or see.	Something to follow that helps everyone know what to do and stay safe.
safe	sharing online		trusted adult
			
Protected from harm or danger.	Putting information on the internet for others to see.		A grown-up who can help you and keep you safe.

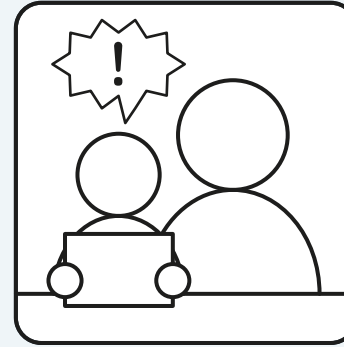

Online safety rules

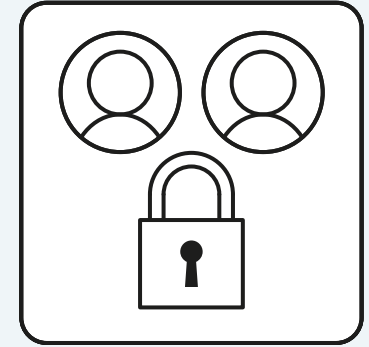

Ask a trusted adult
before going online.

Only talk to people you
know in real life.

Stop and tell a trusted
adult if something online
makes you feel worried or
scared.

Keep private information
to yourself.
