

Why can't a Meerkat live in the North Pole?

Homework project

due in on Tuesday 6th February 2024

This half term, we are learning about different climates around the world and the different animals that live in those climates.

For your homework, we would like you to make something that represents a hot or cold climate. This could be done using a box for example:

You could also represent a hot or cold climate in a painting or by doing some research about a particular hot or cold country.

Will you choose a hot climate? It could include:
jungle animals, desert, palm trees, sand dunes etc.

or

Will you choose a cold climate? It could include:
polar bears, penguins, ice bergs, seals etc.

You will be presenting your homework to the rest of the class and everyone will vote for the piece of homework they think is the most creative. The winners will win a Head teacher's homework award in the Going for Green assembly.
