MISSION STATEMENT

THIS IS A STATEMENT THAT DESCRIBES WHY WE EXIST AS A SCHOOL

“Our purpose at Marshside Primary School is to provide every child with rich educational experiences, in line with the schools H.E.A.R.T values, within a nurturing, secure environment. This is to enable children and staff to thrive academically, professionally, personally and socially.”

- For us this means:
- 1 – We must really know our families and communities.
- 2 – The quality and nature of what we do will be driven by the needs of specific groups of children.
- 3 – We prepare our children well for the next phase of their lives.
- 4 – We have staff who are confident, capable and inspire our children.

SCHOOL VISION

THIS IS A SHORT DESCRIPTION OF HOW WE WANT OUR SCHOOL TO LOOK AND FEEL TO EVERYONE IN 2024.

- We are 'values driven' and hence everything we do will be guided by our H.E.A.R.T values.
- Our school will be a place where the best people want to work; we operate at full capacity and the best organisations come to us, to work with us for our benefit and theirs.
- This will be seen and felt in a number of ways.

1 - The attainment and progress of all groups of children will be at least comparable to their peers nationally. By the end of Year 6, pupils will be fully equipped to meet the challenges of secondary education. They will have experienced a broad, rich and fulfilling education which develops their personal, social and citizenship skills to the full.

2 - Our staff will reflect our aspirations and high expectations. They will be proud to be part of the Marshside team, and advocate for us. They will feel valued and able to deliver high-quality teaching and a well-planned curriculum due to our investment in them and the freedom they have to innovate and adapt to help our children thrive.

3 - We are 'on the map' and will be seen and felt as a highly visible and active partner at the heart of our local community. We will have secured a sustainable future where we work ever more closely with other schools and organisations to enhance our effectiveness and efficiency and, through maximising our capacity, have a transforming impact on the lives of our children, staff and community.

4 - We will play our part in dealing with the climate emergency by minimising our carbon footprint; reducing waste and recycling. Our whole school site will be a haven for nature and in doing so all our children, staff and neighbours will benefit in their wellbeing and learning.
