Topic homework Y6 Spring Term – Frozen Kingdom

Here is a range of optional homework linked to your topic for spring term. If you choose to complete these we would love to see them either by email with photographs admin@lakeside.doncaster.sch.uk or by bringing them into school once they are complete.

The Arctic Create a fact file on the Arctic. Include information on the geography, the animals that live there, the natural resources available and the countries which are in the Arctic Circle. The following websites will be useful: https://kids.kiddle.co/Arctic https://www.natgeokids.com/uk/discover/geography/general-geography/ten-facts-about-the-arctic/ https://kids.britannica.com/kids/article/Arctic-Regions/352777	**The Antarctic** Create a fact file on the Antarctic. Include information on the geography, the animals that live there, the natural resources available and who owns the Antarctic. Remember, the Arctic is very different to the Antarctic in a number of ways! The following websites will be useful: https://www.dkfindout.com/uk/earth/continents/antarctica/ https://www.kids-world-travel-guide.com/antarctica-facts.html https://kids.britannica.com/kids/article/Antarctica/352760
The North Pole The first person to reach the North Pole was Roald Amundsen, a Norwegian explorer. He battled incredible cold and dangers to make it there. Write a short diary entry as Amundsen about the day he reached the North Pole. 	**The South Pole** The first person to reach the South Pole was Roald Amundsen, a Norwegian explorer. He battled incredible cold and dangers to make it there. Write an explanation of why reaching the South Pole was even more difficult and dangerous than reaching the North Pole.

Polar expeditions

Imagine you were organizing your own expedition to the South Pole! Think about what you would need, how you would carry your supplies and the route you would take. Plan your expedition, considering:

- How many people will accompany you and the clothes and food they will need.
- Transport – will you use sleds and dogs or will you rely on team members skiing and pulling their own supplies?
- Route – where will you start from? What route will you take?
