

ALL ABOUT HUMANS

KNOWLEDGE ORGANISER

Autumn 1

This half term, we will be learning about the human body. The children will be expected to identify, name, draw and label the basic body parts and say which part of the body is associated with each sense. They will also need to recognize that humans are animals and compare and describe the differences in their own features (eye, hair, skin colour, etc.)

They should recognise that humans have many similarities.

We will also learn about changes within living memory and will look at family trees, including the Royal Family.

Key Vocabulary	
sight	Your eyes let you see all the things around you.
hearing	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
touch	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
taste	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
smell	You smell using your nose. Your nose can tell if things smell nice or not nice.
