

Curriculum Map

Year 6 Autumn 1 2025-2026

English

THE NOWHERE EMPORIUM

Based on the book 'The Nowhere Emporium' by Ross Mackenzie, the children will create their own stories based on creating a magical 'wonder'. They will then move to non-fiction writing creating a magazine page focussing on the circus.

Maths

We will begin the year by looking at numbers up to 10,000,000, and comparing, rounding and ordering them. We will then move onto addition, subtraction, multiplication and division building on our knowledge from Year 5.

R.E—Life as a Journey

In this unit, the children will have an opportunity to think about the idea that that life is a journey and what it means to make that journey as a Christian.. The children will begin to understand the concept of undertaking a religious pilgrimage.

Science—ELECTRICITY

In this unit, the children will construct simple series circuits, to help them to answer questions about what happens when they try different components, for example, switches, bulbs, buzzers and motors. They will learn how to represent a simple circuit in a diagram using recognised symbols.

Geography—TRADE & ECONOMICS

In this unit, the children will find out about goods and services are traded around the world. They will explore the UK's trade links today and in the past, finding out about goods imported and exported and the methods of transport used. The children will also learn about fair trade and why it is important in a global market.

P.E

Our P.E. day with Mr O'Brien will be on Tuesdays and Mrs Home on Fridays. This half term, our topics will be football and orienteering.

Class 6 will have Forest School on Thursdays.

We will also have our 3 day residential to Borwick Hall.

French—Let's Visit a French Town

In this unit, the children will make simple sentences using the word 'habiter'. They will begin to recognise key phrases and be able to respond. The children will apply previous knowledge of different places in towns, direction, homes and numbers.

D.T.—SEASONAL PRODUCE

In this unit, the children will sample different types of seasonal foods grown in the U.K. , focusing on why some foods can only be grown in certain places and certain times of year. The children will design their own products using seasonal produce before adapting recipes and ingredients for different effects. Our D.T. will link to our work in Forest School.

Computing

This unit allows children to learn more about what networks are, what they do and how they connect devices. Children also consider the safety aspects of networks, including the possible positive and negatives uses of networks.
