Aims

This remote learning policy for staff aims to:

- Ensure consistency in the approach to remote learning for pupils who aren't in school
- Set out expectations for all members of the school community with regards to remote learning
- Provide appropriate guidelines for data protection

Use of remote learning

All pupils should attend school, in line with our attendance policy. Remote education is not viewed as an equal alternative to attendance in school.

Pupils receiving remote education will be marked absent in line with the Pupil Registration Regulations.

We will consider providing remote education to pupils in circumstances when in-person attendance is either not possible or contrary to government guidance.

This might include:

- Occasions when we decide that opening our school is either:
 - Not possible to do safely
 - Contradictory to guidance from local or central government
- Occasions when individual pupils, for a limited duration, are unable to physically attend school but are able to continue learning, for example because:
 - They have an infectious illness
 - They are preparing for or recovering from some types of operation
 - They are recovering from injury and attendance in school may inhibit such recovery
 - Their attendance has been affected by a special educational need or disability (SEND) or a mental health issue

The school will consider providing pupils with remote education on a case-by-case basis.

In the limited circumstances when remote learning is used, we will:

- Gain mutual agreement of remote education by the school, parents/carers, pupils, and if appropriate, a relevant medical professional. If the pupil has an education, health and care (EHC) plan or social worker, the local authority (LA) will also be involved in the decision
- Put formal arrangements in place to regularly review it and identify how to reintegrate the pupil back into school
- Identify what other support and flexibilities can be put in place to help reintegrate the pupil back into school at the earliest opportunity
- Set a time limit with an aim that the pupil returns to in-person education with appropriate support

Remote education will not be used as a justification for sending pupils home due to misbehaviour. This would count as a suspension, even if the pupil is asked to access online education while suspended.

Roles and responsibilities

Teachers

When providing remote learning, teachers must be available between normal working hours and consistent with contracts of employment.

If they're unable to work for any reason during this time, for example due to sickness or caring for a dependent, they should report this using the normal absence procedure.

When providing remote learning, teachers should:

- Provide pupils with access to remote education as soon as reasonably practicable, though in proportion to the length of absence and disruption to the learning of all learners
- Make reasonable adjustments for pupils with SEND to access remote education, where required, informed by relevant considerations including the support families will require and the types of services that pupils can access remotely

They are also responsible for:

- Setting work
 - For the class they are assigned to and cover where needed
 - Work to match the daily timetable
 - By 9am on the first day of class
 - Upload work to See Saw
 - Which is high quality and covers the range of subjects expected
 - Which is adapted for SEND
 - Which they provide feedback on
 - And keep in touch with children for welfare checks

Teaching assistants

When assisting with remote learning, teaching assistants must be available between normal working hours and consistent with contracts of employment.

If they're unable to work for any reason during this time, for example due to sickness or caring for a dependent, they should report this using the normal absence procedure.

When assisting with remote learning, teaching assistants are responsible for:

- Supporting identified groups of children
- Making telephone calls
- Home visits where acceptable

Subject leads

Alongside their teaching responsibilities, subject leads are responsible for:

- Monitoring aspects of the curriculum are covered
- Work with teachers to ensure consistency
- Monitoring work set by teachers
- Supporting teachers with knowledge and resources

Senior leaders

The Deputy Headteacher has overarching responsibility for the quality and delivery of remote education.

Alongside any teaching responsibilities, senior leaders should continue to use the school's digital platform for remote education provision and make sure staff continue to be trained and are confident in its use.

They should continue to overcome barriers to digital access where possible for pupils by, for example:

- Distributing school-owned laptops accompanied by a user agreement or contract (if possible)
- Securing appropriate internet connectivity solutions where possible
- Providing printed resources, such as textbooks and workbooks, to structure learning, supplemented with other forms of communication to keep pupils on track or answer questions about work
- Having systems for checking, ideally on a daily basis, whether pupils learning remotely are engaging in its use, and work with families to rapidly identify effective solutions where engagement is a concern

They are also responsible for:

- Co-ordinating the remote learning approach across the school
- Monitoring the effectiveness of remote learning
- Monitoring the security of remote learning systems, including data protection and safeguarding considerations
- Ensuring staff remain trained and confident in their use of online digital education platforms
- Training staff on relevant accessibility features that your chosen digital platform has available

- Providing information to parents/carers and pupils about remote education
- Working with the catering team to ensure pupils eligible for benefits-related free school meals (FSM) are provided with good quality lunch parcels or food vouchers

Designated safeguarding lead (DSL)

The DSL is responsible for: Maintaining the Child Protection Policy through Remote Learning.

IT staff

IT staff are responsible for:

- Fixing issues with systems used to set and collect work
- Helping staff and parents/carers with any technical issues they're experiencing
- Reviewing the security of remote learning systems and flagging any data protection breaches to the data protection officer (DPO)
- Assisting pupils and parents/carers with accessing the internet or devices

Pupils and parents/carers

Staff can expect pupils learning remotely to:

- Be contactable during the school day
- Complete work to the deadline set by teachers
- Seek help if they need it, from teachers or teaching assistants
- Alert teachers if they're not able to complete work
- Act in accordance with normal behaviour rules / conduct rules of the school (and any specific online behaviour rules where applicable)

Staff can expect parents/carers with children learning remotely to:

- Engage with the school and support their children's learning, and to establish a routine that reflects the normal school day as far as reasonably possible
- Make the school aware if their child is sick or otherwise can't complete work
- Seek help from the school if they need it
- Be respectful when making any complaints or concerns known to staff

Governing board

The governing board is responsible for:

- Monitoring the school's approach to providing remote learning to ensure education remains of as high a quality as possible
- Ensuring that staff are certain that remote learning systems are appropriately secure, for both data protection and safeguarding reasons

Who to contact.

If staff have any questions or concerns about remote learning, they should contact the following individuals:

- Issues in setting work – talk to the relevant subject lead or SENCO
- Issues with behaviour – talk to the head teacher
- Issues with IT – talk to IT staff
- Issues with their own workload or wellbeing – talk to their line manager
- Concerns about data protection – talk to the data protection officer
- Concerns about safeguarding – talk to the DSL

Data protection

Accessing personal data

When accessing personal data for remote learning purposes, all staff members will explain:

- How they can access the data, such as on a secure cloud service or a server in your IT network
- Which devices they should use to access the data – if you've provided devices, such as laptops, make staff use these rather than their own personal devices

Processing personal data

Staff members may need to collect and/or share personal data such as part of the remote learning system. As long as this processing is necessary for the school's official functions, individuals won't need to give permission for this to happen. The school will follow its data protection policy / privacy notice in terms of handling data, which can be found on the school website.

However, staff are reminded to collect and/or share as little personal data as possible online, and to remind themselves of their duties in terms of data protection in accordance with the school's policies and procedures.

Keeping devices secure

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- Ensuring the hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Installing antivirus and anti-spyware software
- Keeping operating systems up to date – always install the latest updates

Safeguarding

Safeguarding remains a priority during any period of remote education. Staff, pupils and parents must continue to follow the school's Child Protection and Safeguarding Policy, Online Safety Policy and Filtering and Monitoring arrangements.

Any safeguarding concerns arising during remote education must be reported immediately to the Designated Safeguarding Lead.

Remote education will be delivered using approved platforms and systems. Online activity remains subject to the school's filtering and monitoring arrangements where applicable.

Where remote education is provided due to medical needs, arrangements will be considered alongside any Individual Healthcare Plan, Education Health and Care Plan or other relevant support plan.

Monitoring arrangements

This policy will be reviewed annually, or sooner if guidance, legislation or school procedures change.

At every review, it will be approved by the governing body.
