Knowledge Organiser: Animals, including humans
All about me

Careers connected to the human body: doctor, nurse, massage therapist, personal trainer, theatre technician

Lesson Sequence

1. I can name the basic parts of the human body and explain what they are used for.

2. I understand that our eyes allow us to see and I can name the basic parts of the eye.

3. I know that ears are to help us hear and they tell us which direction a sound is coming from.

4. I know our tongue allows us to taste, and I can describe a range of different flavours.

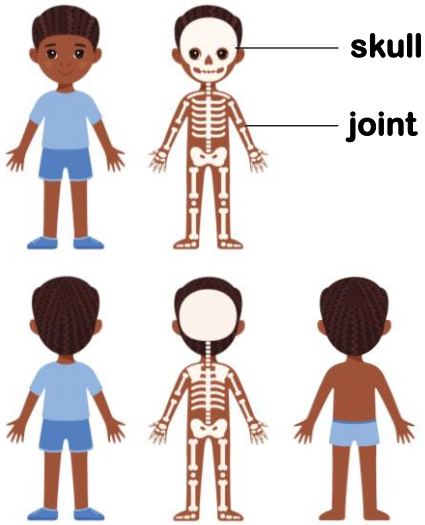

5. I know our skin helps us to feel and our fingertips are sensitive to touch.

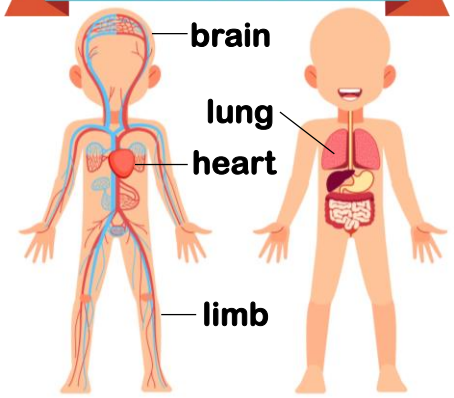

6. I know my nose allows me to smell many different scents and that can help to keep me safe.

Human Skeleton

The Human Organs

BODY PARTS

arm foot knee leg

5 SENSES

smell sight touch hearing taste
