

# Stanbury Village School

## SEND – Statement of Intent

September 2026

At Stanbury Village School, all children have equality of opportunity and are entitled to a broad, balanced and differentiated curriculum. School promotes opportunities for all children to acquire skills, knowledge and the positive attitudes needed to grow, academically and socially. We take into account children's backgrounds and differences. We work together with parents and outside agencies in the best interests of the child. We emphasise the development of self-discipline, confidence, self-esteem and respect for self and others.

Our Special Educational Needs and Disability (SEND) provision aims to:

- Promote high standards, inclusion and equal opportunities,
- Ensure needs are identified and met, as early as possible,
- Enable all children access to the national curriculum,
- Ensure all children achieve basic skills commensurate with their ability,
- Help children experience success and achievement, and develop self-confidence and self-esteem,
- Encourage and support development of self-discipline and socially acceptable behaviour,
- Ensure send is an integral part of all staff's responsibility.
- Safeguard and encourage a parent's/guardian's right to be involved in their child's education,
- Ensure that all children whatever their needs are safe and secure.
