

Parent governor application 2026

Tsveto Mila Mateeva

I would like to apply for the role of Parent Governor because I care about the school and want to help make it the best possible place for all children. As a parent I am personally invested in its success and in creating a safe, happy environment.

I have experience in working with children of all ages through workshops, events and schools. I also worked for two years as a Teaching assistant at Irlam & Cadishead academy. This experience has helped me understand how schools work and how important it is to support children's learning well being and confidence.

I hold a renewable Enhanced DBS check and take safeguarding very seriously. I also volunteer locally at the local food bank and the library which shows my commitment to supporting the community. I am also a part of the PTFA.

I am willing to attend meetings regularly and take an active role. I believe good communication between parents and the schools helps children feel supported and confident. I would like to support the school in maintaining high standards to benefit all pupils.
