

## Parent governor application 2026

### Donovan Partington

I would like to apply for the role of Parent Governor as I am committed to supporting and improving the school community and ensuring positive outcomes and experiences for all pupils.

As a SENDCo at a Secondary school, I bring strong experience and enthusiasm inclusion and SEND, alongside a passion for ensuring every child can succeed.

However, I recognise that governance is a strategic role and I am keen to contribute to decisions that support the progress of students, staff and the wider community. I offer a collaborative approach, a strong sense of accountability and a genuine commitment to helping the school develop as an inclusive and a high achieving environment.

Thank you for your consideration.
