

In Design and Technology, we will be using textiles to create a puppet. Can you create your own puppet to use to retell one of your favourite stories?

Year 2 – Autumn 1

BOUNDARY LEARNING TOGETHER

You can complete one task a week and bring them in weekly or you can complete them all at once and bring them in on the last THURSDAY of term.

You will also receive weekly spellings which will be handed out every Friday and collected in every THURSDAY.

You also have this half-term's KIRF's to practise. Remember you need to be able to recall these quickly. Use the top tips provided to help you practise in a fun way.

Our Science is all about

Everyday materials and their uses

Go around your house and make a list of all the different materials you can find. Don't forget to say what the material has been used for.

You could also say why the material is suitable for its usage.

October is Black History Month, Year Two will be focusing on Rosa Parks and how she influenced historical change.

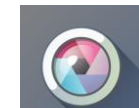

Can you find about Rosa Parks and create a way to share this information with the class?

READ! READ! READ! Draw and write about a character from one of your home reading books or from any story you have enjoyed reading at home.

In Computing we will be using the program Pixlr to experiment with taking portrait and landscape photographs. We will also be learning to edit these by adjusting the lighting and adding effects.

Can you create some pieces using this program? Can you take some pictures of nature while you are out? The Pixlr program is free and easy to find online with a quick Google search.

Remember to practise your KIRFS and your weekly spellings!
