

Year 1

Spring 1

This half term in English we will be exploring the story 'The Girl with Two Dads'. This story forms part of our work on LGBTQ+. We will complete descriptive writing linked to this text alongside other creative writing. We will also read and explore the story 'Lost and Found'. We will learn about story maps before retelling the story in our own words.

Our Maths learning journeys this half term are going to focus on developing our understanding of place value and numbers up to 20. We will explore how numbers can be made and represented using different resources. Once we have a confident understanding of place value we will further develop our understanding of addition and subtraction of amounts to 20. This will involve the addition and subtraction of two-digit numbers.

This half term in Computing, we will be exploring how to keep ourselves safe online. We will think about sensitive information that should not be shared and learn how to use digital equipment safely.

In DT, we will be learning about healthy eating and healthy food choices. We will then develop our practical skills so we can prepare, chop and grate fruit to make our own fruit salad safely. Then we will evaluate our product by taste testing it.

In PE, we will be working with Blackpool Football Club to continue developing our seven fundamental skills.

This half term our Science focus is animals. Throughout this topic we will explore and learn about what animals look like, their important features and what they eat. While learning about animals we will start to compare and sort animals based upon their features and diet.

In our second DT journey, we will learn about sliders and levers looking at everyday examples around us. Exploring how these mechanisms are constructed and practicing to make our own using card. Finally, we will be designing and making our own moving picture using these mechanisms, applying the skills we will have learnt.

In PSHE, we will learn about keeping safe and what healthy relationships are.

During RSE week, we will be learning about the correct names for parts of our body and how we change from babies to adults.

In RE, we will be focusing on learning about Islam and how beliefs about creation can affect the way people treat the world. We will discuss and learn about Islamic traditions and how they show their beliefs in their daily lives.
