

## Computing:

We are going to be learning how to create a webpage and use these to make our own website.

Have a look at the 'Google SITES' app online and see if you can get a head start at using the features.

Can you make your own webpage on 'google sites' or 'google slides' presentation about Boundary Primary School?

## Art:

We will be learning about fashion design this half-term. Do some research using [swiggle.org.uk](http://swiggle.org.uk), then have a go at designing your own Boundary Primary School uniform, football kit or netball kit. Can you include the school colours, but make it interesting and fun?

## Boundary Learning Together

### Year 5: Summer 1

You can either complete one task a week and bring them in weekly or you can complete them all at once and bring them in on the last Thursday of term.

You will also receive weekly spelling words and a weekly Maths.co.uk and SPAG.com task. Weekly work will be available from Friday and must be completed by THURSDAY morning. If it has not been completed, you will spend a break time completing it, inline with our school home learning policy. Please let us know if you need any help with this work.

Many thanks,

Miss Starkey and Mr. Parsons

## Science

Please write a small report about a pet you own, or a pet you would like to own, which covers the following points:

What animal it is

What it looks like

How old they are

Their behaviour

What they eat

How you look after it

## French:

Use your knowledge from our French lessons to write down what items of clothing you have in your wardrobe.

Reading into Writing: Write a letter to your local MP stating what issues you want resolving in your community.

Maths: This term, we will be learning about data and geometry (the study of measurements, properties and angles of shapes).

Design a poster to describe the features of all of the different types of quadrilateral.
