

Design and Technology

We are looking at food this half term.

Write a recipe for your favourite meal or treat.

Perhaps follow a recipe and take photographs of the final result!

Create a review of its appearance and taste!

Geography

To support our learning about Lancashire and the Western USA, you could create a fact file or poster comparing the two regions, including their physical and human features.

If you are feeling creative, you could make a labelled map or 3D model showing key features such as mountains, rivers, or settlements, or even design a climate graph to show how the weather differs between the two places.

Boundary Learning Together - Year 5, Summer 2

You can either complete one task a week and bring them in weekly or you can complete them all at once and bring them in on the penultimate Thursday of term.

You will also receive weekly spellings, weekly Maths homework on Maths.co.uk and weekly GPS homework on SPAG.com. Weekly work will be available from Friday and should be completed by Thursday morning. If it has not been completed, you will spend a break time completing it, in-line with our school home learning policy.

Please let us know *before* Thursday if you need any help with this work.

Thank you.

Miss Starkey and Mr. Parsons

FRENCH

We are going to be learning how to order food and drinks in a café. Think about any words or phrases you might find useful. Make sure to note this down so we can learn it in class.

RE:

Create a mind map or information guide about Judaism.

Reading into Writing:

Create a short narrative about a famous sporting event.

Maths: Can you use a ruler to measure accurately in centimetres? Measure and record the length of items in your bedroom.
