

Developing Oracy

Every Friday, we will be giving the children a 'think piece' to come home with. They must write their opinion about what they have been given and present to the class the following Friday.

In PSHE we will be looking at TRANSITION

Find out about your new high school. Read through the website and look at the gallery and prospectus. Try to find out as much as you can before you start in September.

Year 6 – Summer 2

BOUNDARY LEARNING TOGETHER

You can complete one task a week and bring them in weekly or you can complete them all at once and bring them in on the last THURSDAY of term.

You will also receive GPS and Maths homework, which will be done in your workbooks. This will be given out on a Friday and MUST be brought back the following Thursday. If not, you will spend Friday break/lunch time completing it, inline with our school home learning policy. Thank you.

READ! READ! READ! Write a book review about the Home Reading book you have read or about any text from Reading Plus.

Learn your favourite poem off by heart and come to school and tell it to us all!

In Science we are learning about EVOLUTION AND INHERITANCE

One of the most well-known scientists linked to understanding evolution is Charles Darwin. We would like you to complete a fact file/all about Charles Darwin project using Microsoft Slides. This can be done on our Microsoft classroom. If you don't have access to this at home you can always use time in the school day to complete it.

In English we will be learning the poems 'Tarantella' and 'Television' off by heart for our Choral Speaking competition. Make sure you are learning it at home!

Use Times Tables Rock Stars to practise your multiplication skills. Use Spelling Shed to practise weekly spellings in a fun way! Use Reading Plus daily!
