1. We looked at the Environmental Review to see how things were going in school. We noted that we were strong at many of the Eco topics and these were known to the children throughout school. We thought that we had a good year and are especially looking forward to Water Week in July. Gardening club was working hard planting and growing flowers and vegetables. The saplings have been planted and are doing well.
  2. A meeting with Mrs Bunday about Water Week will be planned shortly.
