Design an Invention!

Today's DT assembly introduced an exciting STEM-led competition for the children to take part in.

The challenge encourages pupils to use their creativity, problem-solving, and design skills as they explore ideas and bring them to life. It's a fantastic opportunity for the children to develop their creative thinking and take part in an inspiring hands-on project. Children have been given resources to complete their entries and need to return them to school by February 27th.

ENGINEER
WHAT WOULD YOU DO?®**

A Special Visit from Sheffield Children's Hospital

Romy from Sheffield Children's Hospital visited our school to talk to the children about fundraising for the Pride of Yorkshire Trail. She explained that our school will be raising money for a lion cub, which the children will design and which will be displayed on the trail in Sheffield. Romy also talked about the important work Sheffield Children's Hospital does to support children and families across Sheffield and the surrounding areas, helping the children understand how fundraising supports the care and services the hospital provides. We will be sharing an update on the Pride of Yorkshire fundraiser next week.

Poetry in Action!

We've been celebrating poetry in school this week, and the children have been full of enthusiasm as they learn their poems. They are already showing growing confidence in their performance skills, and it's been wonderful to see. I can't wait to see them perform during our talk assemblies next week – please do ask your child to share their poem with you at home. They're fabulous!
