

Literacy

This half term we will be focusing our writing on London in readiness for our upcoming trip. We will be mastering the skills learnt across the year.

Maths

In maths, we will be focusing on algebra as well as looking in depth at money, profit and loss linking to our enterprise projects.

Dragons' Den Enterprise Project

(maths, computing, health & relationships)

Year 6 children are asked to run a summer fair after our sports day. Their aim is to raise money for their London trip. In groups, the children will develop an idea, create a presentation, present the presentation to the whole school and a panel of dragons (including governors and Helsby High representatives). The children will then create, buy and prep everything they need before the event.

Science - Animals including humans

We will learn about the following:

- identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood
- recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function
- describe the ways in which nutrients and water are transported within animals, including humans.

Team Oak Summer 1 Key Learning

Key information

Homework

Sent out every Friday. There will be a maths task, SPaG task and a spelling task. Please also ensure your child is reading at least 3 times a week and practising their times tables.

PE days

FRIDAYS

Year 6 to wear PE kit to school

Any visits/events

Dragons' den enterprise - 26th June

Helsby High transition days 6th-7th July

Weaverham High transition days - 30th June-3rd July

London trip - 15th-17th July

Leavers assembly - 20th July

RE- Christianity (continued)

Children will learn about the similarities and differences within Christianity locally and globally. They will explore knowledge through buildings and music.

Children will also explore the question:

What do Christians believe about the Kingdom of God on Earth and in Heaven?

Geography - Volcanoes & Earthquakes (continued)

Children will learn about the different types of volcanoes and locate the tectonic plates on a world map. They will be able to explain the causes and effects of earthquakes.

Music

Children will be learning to sing songs for their leavers assembly.
