

Animals including humans have offspring that grow into adults

lamb

sheep

baby

toddler

child

adult

teenager

egg

chick

chicken

The young of some animals don't look like their parents:

spawn

tadpole

frog

eggs

caterpillar

butterfly

pupa

Animals including humans Year 2

Key vocabulary	
offspring	A person's children or an animal's young.
reproduction	The process where new animals, humans or plants are made.
growth	The process of getting bigger.
exercise	This is when you move your body physically to get fit and remain healthy. Our heartbeat increases when we exercise.
breathing	This is what we do to get oxygen in our bodies.
hygiene	Keeping clean to prevent illnesses and the spread of disease.
germs	A very small thing that can cause diseases. We cannot see them with our eyes.
disease	An illness which affects people, animals or plants.

Significant scientist

Dr Ernest Madu
(born 1960)

Dr Ernest Madu is a cardiologist. His work focuses on providing affordable healthcare in low-resource nations.

All animals including humans have these basic needs to survive:

food to eat

water to drink

air to breathe

shelter

To grow into healthy adults, animals including humans need:

good hygiene

exercise

right amount and types of food

The Eat Well plate

This shows the different food groups that make up a healthy diet.
