

Computing

Animation

National Curriculum Objective

- use sequence, selection, and repetition in programs; work with variables and various forms of input and output
- use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.
- select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.

Key Vocabulary

sequencing	layout	instructions	animation
insert	tabs	duplicate	change
order	function	trigger	input
Substantive- Subject Knowledge		Bigger Picture- Supporting Words	

Intents	Student
Can I follow a sequence to create an animation?	
Can I create an animation showing the growth of flower?	
Can I use the duplicate tab to create slides?	
Can use the transitions tab to play an animation?	
Can I add a hyperlink to my slides?
