

Introduction to AI Computing

National Curriculum

- Use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.
- Select use and combine a variety of software on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.

Key Vocabulary

Artificial Intelligence	future technology	technology	decision-making
data	human oversight	learning	ethics
digital citizenship	prompt	patterns	responsibility
Substantive- Subject Knowledge		Bigger Picture- Supporting Words	

Intents	Pupil	Teacher
Do I understand what Artificial Intelligence is and some of the tasks it can carry out?		
Can I communicate effectively with AI tools by writing clear and precise prompts?		
Do I know how to be a good digital citizen when using AI?		
Do I know how AI might develop in the future?
