

Unpacking Hardware and Software Computing

National Curriculum

- Understand computer networks, including the internet; how they can provide multiple services, such as the World Wide Web, and the opportunities they offer for communication and collaboration.
- Select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.

Key Vocabulary

Key Vocabulary			
application	hardware	peripheral	safety
component	input	process	problem-solving
computer system	output	organisation	communication
Substantive- Subject Knowledge		Bigger Picture- Supporting Words	

Intents	Pupil	Teacher
Do I understand what technology is, where we see it in everyday life, and how it helps us at school, home and beyond?		
Can I identify and describe different pieces of computer hardware and understand their functions?		
Do I understand what software is and how we use it to complete tasks?		
Can I explore how hardware and software interact to complete everyday tasks?
