Science

Forces and Magnetism

- compare how things move on different surfaces
- notice that some forces need contact between 2 objects, but magnetic forces can act at a distance
- observe how magnets attract or repel each other and attract some materials and not others
- compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials

History

How did the way people live change between the beginning of the Stone Age and at the end of the Roman occupation?

Stone Age Life

- Early Stone Age (Paleolithic):
