

English

Hansel and Gretel

In English, we will develop our persuasive writing skills through the story of 'Hansel and Gretel'. We will explore different characters' viewpoints and write letters in role to persuade others to change their minds or take action.

Geography

Energy Sources / Map Skills

In Geography, we will explore energy sources, learning about renewable and non-renewable energy, how it is transported, and its pros and cons. We will also develop our map skills by locating UK cities, using grid references and identifying map features.

Design Technology

Fairground Rides

We will learn to design and create a fairground ride by generating ideas from research. We shall use electrical motors to make moving parts and explore how to build strong frameworks.

Religious Education

Forgiveness / Zoroastrianism

We will explore forgiveness, repentance and making right choices through Christianity and Judaism. We will also learn about Zoroastrian beliefs and symbols.

PSHE

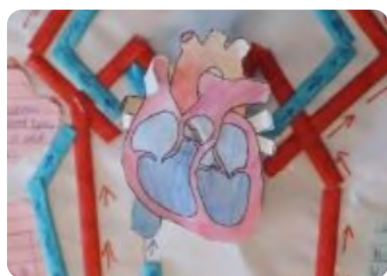

Changing Me

We will be learning about the changes our bodies go through as we near puberty. This includes self-esteem and body image, as well as transitioning to secondary school.

Science

Circulatory and Respiratory Systems

We will learn how the circulatory and respiratory systems work together to power an animal during a hunt. We shall evaluate how environmental changes affect this process.

Music

Singing

In Music, we will focus on singing skills and stage presence as we prepare for our Year 6 production. We will mainly work on pitch and rhythmic accuracy, phrasing, vocal projection, clear diction and expressive singing.

Year 6 Curriculum Summer 2

This half term our topic is: Confidence

Support your child at home:

Please encourage your child to learn the songs and dances for the Year 6 Production.

Enrichment

Year 6 Production

We will be rehearsing and performing for our end of year production, featuring our own scenery and props.

Computing

Digital and Print Media

We will work collaboratively to prepare and publish a class yearbook using Google apps. We shall write and review content, sourcing digital media safely and responsibly, in order to design a high-quality printed publication.

Physical Education

Tennis / Volleyball

We will develop our tennis skills, using racket skills such as forehand and backhand. In volleyball we shall learn to volley and how to do an under-arm serve.

Maths

Problem Solving

We will be using mathematical skills for real-life situations such as exploring future salaries, taxes, mortgages, budgeting, bills and buying a dream home. We will use the four operations, percentages, fractions, area and perimeter, as well as working with six-digit numbers.
