

What is a School Improvement Plan?

The school improvement plan outlines what we are going to focus on to make Great Sankey Primary even better.

Our school is already a special place to be, but everyone in school works hard to continue to make improvements. Each year, the Headteacher, senior leaders, staff and Governors decide on what areas need to be focused on and then once these improvements have been completed, a new plan is made.

Alongside the main priorities run other areas where we continue to focus our attention

School improvement Priorities for 2026-28

These are the 3 main areas we will be focusing on:

- To improve writing outcomes across the school through the implementation of recommendations from the DfE Writing Framework and the Early Years Revised Framework.
- To develop teaching and learning practices through the implementation of a programme of instructional coaching for teaching staff.
- To implement the TCAT Digital Strategy and ensure preparedness for our pupils to thrive in a digital world.
