

Early Years at Lisburne School

Turtle class

Turtle Class has a main play area, therapy room, creative area, low distraction teaching room and access to a soft play and dark room. We have a fully enclosed outdoor space and access to a forest school area.

Our children are encouraged to engage in a range of activities both independently and in small groups with staff. We are able to provide high quality indoor and outdoor learning experiences for our children where they can explore, build, move and role play.

Each child has their own EHCP which is used to ensure all children access a range of therapy, learning and health care opportunities which meet their individual needs.

Staffing

The EYFS staff team consists of 2 Teachers, 4 Early Years Practitioners and 11 Teaching Assistants.

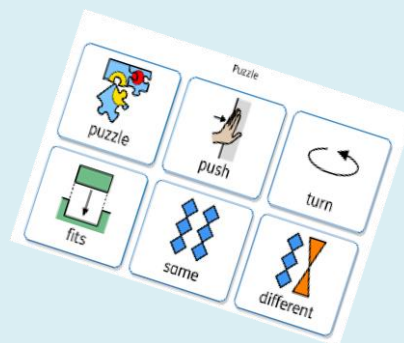

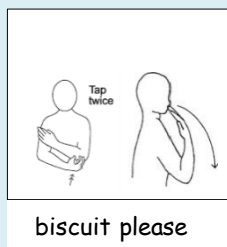

Positive relationships with the adults in our setting encourage children to explore and show curiosity. They show persistence and enjoy new challenges. We promote independence and resilience in our children. A variety of accessible resources and pedagogies are used to develop learning experiences.

Communication

Communication is promoted in all areas of learning in the Early Years. Staff work closely with SALT (Speech and Language Therapists) and all staff are trained to use a total communication approach, including strategies such as timelines, communication pages, Makaton and intensive Interaction, as well as individual communication plans. Children also take part in individual and group Communication sessions.

Activities and Experiences

All our children experience a range of activities where there are regular opportunities to go out of school. These include going out on the school minibus for planned visits linked to topics, life skills, walks in the local environment and Forest School.

All activities are planned to challenge and help pupils to progress to the next stage in their development and also to take their individual interests and ways of learning into account. Planning is linked to the seasons and celebrations throughout the year but we also follow the topic themes in school which have a two-year cycle.

Year 1	Year 2
Autumn - All About Me	Autumn - All About Me
Spring - Outdoors	Spring - Journeys
Summer - Children's Choice	Summer - Children's Choice

We follow the EYFS Statutory Framework, which is a progressive document to guide us through next steps and assessment of children through the age ranges.

Literacy is taught through continuous provision but set out in a quiet area. Children are introduced to early literacy, through phonics, reading and writing activities. All children are encouraged to have a love for books and reading and are taught early reading behaviours. All children have sharing books to take home and these are changed regularly. Daily small group reading sessions take place before lunch.

Mathematics is taught through practical activities in number and shape space and measure through games in small groups and individual activities. Resources for Mathematics are accessible for pupils at all times to reinforce the activities done in groups.

Specialised Group Sessions

Our children take part in specialised group sessions including TAC PAC, Intensive Interaction, Food play and Sensory Stories. These activities are a strength of the provision we offer and help children to progress in sensory learning.

Through visits and advice from SALT and OT, individual and small group sessions are arranged for children and some have individual sessions of physiotherapy. These specialised activities further enhance the provision we offer.

Whole School Events

Children in EYFS take an active part in whole school days such as Anti-bullying Day, World Book Day, Red Nose Day and Children in Need. All these special activities help the children to feel part of the wider school environment.

Technology

Teachers and staff make every effort to keep up to date with technology and make this available to pupils in their teaching practice as and when appropriate.

IPads are used in some activities and appropriate apps acquired regularly. Our children also have access to Interactive whiteboards, Smart tables and touch toys.

Home School Links

School keep in close contact with parents through Class Dojo, an instant messaging system that allows staff to share activities the children have been doing, as well as communicate directly with individual parents / carers.

FLC

Children allocated a place at Lisburne School will be contacted by our Family Liaison coordinator (FLC) who will make a home visit with a member of the class team. The visit provides parents and carers with the opportunity to share information about their child, the FLC will provide support during the transition into school. The work of the FLCs is an invaluable tool between home and school.

Linzi Hyde (FLC)
