

Art - Year 3
Autumn 1

What should I already know?

How to hold a pencil when sketching

How to apply different pressure when drawing

Drawing from observation means drawing something that you can see in front of you, rather than drawing it from your imagination.

When looking at an artist's work, we can discuss their different techniques

William Morris

Vocabulary

craftspeople	People who use their hands and tools to make useful or beautiful objects, such as pottery, furniture, jewellery, or clothes.
Arts and Craft movement	This favoured a return to skilled workmanship and high-quality goods instead of machine-made items.
still life	Drawings or paintings of objects that do not move e.g., fruit or flowers.
textile design	Someone who designs patterns and materials for fabrics.
printing block	Simple tool used in art to make repeated pictures or patterns.

Knowledge

William Morris started something called the Arts and Crafts movement, which wanted people to make things carefully by hand instead of using machines.

He wanted to protect special skills and help workers feel proud of what they made.

William Morris is best known for his beautiful wallpaper and fabric designs, which were inspired by nature like flowers and plants.

Skills

Drawing – Line, Pattern and Texture

Use soft, light sketching techniques to create a still life sketch

Use careful observation skills to create a still life sketch

Painting, Printing and Colour

Design and create a polystyrene printing tile to print a repeating pattern

Responding to Artwork

Analyse an existing piece of artwork using language associated with Art and Design (e.g., the style, materials, techniques)

Comment on why you had to make changes to your design

Evaluate your finished artwork and say what you think and feel about it
