

Learning Environments Policy

September 2026

All classrooms should have:

English working wall:

- KS1 phonics classroom display. Year 3 and 4 to use the Supersonic Phonic Friends mats in English lessons.
- A spelling section with words learnt that week with strategies used.
- A grammar section with things learnt that week, for example- adjectives, expanded noun phrases etc. This should be linked to the main writing outcome for that week. This should be from your year groups KLIPs. In Year 6, I would not have a section about capital letters and full stops.
- A vocabulary section with words collated from the PoR text and what they mean.
- The class book you're reading- PoR story
- A large VSC that is referred to.
- Examples of children's work throughout the topic
- Any modelled pieces of writing/ text examples that have been shared. Modelled writing should be handwritten using our agreed handwriting style. Modelled writing should include mistakes, so children are taught how to edit and improve writing. This should be completed on the large A2 flipcharts that have lines on them.
- Keep it current!

Maths working wall:

Mathematics Working Wall

Focus of the unit

What do we already know?	New learning today	New learning today	New learning today	New learning today	New learning today
--------------------------	--------------------	--------------------	--------------------	--------------------	--------------------

Key vocabulary including stem sentences shown in context	Example problems including reasoning questions for children to interact with	Example misconceptions
--	--	------------------------

Mathematics Working Wall

Focus of the unit: *Geometry - angles*

What do we already know? Angles are a measure of turn Acute $< 90^\circ$ Right $= 90^\circ$ Obtuse $> 90^\circ$ Straight $= 180^\circ$ To find missing angle on a straight line subtract known angle from 180°	New learning today Angle in full turn is 360° To find missing angle around a point subtract known angle from 360° 	New learning today To draw a reflex angle draw the acute or obtuse complement to 360° 	New learning today When estimating angles use known facts and knowledge of fractions 	New learning today	New learning today
---	--	---	--	--------------------	--------------------

Key vocabulary including stem sentences shown in context To find missing angle around a point subtract known angle from 360° This reflex angle can be calculated by subtracting the acute angle from 360° 	Example problems including reasoning questions for children to interact with  Draw a quadrilateral with a reflex angle of 234°. What are the sizes of the other angles in your quadrilateral?	Example misconceptions Angles are 180° or less Not true because where two lines meet there is always two directions to turn 
--	---	--

- Each section to be written on either a whiteboard that is stuck up or a laminated A3 sheet of paper
- This should be updated weekly

Reading display:

- Stories that you have read as a class so far- pleasure for reading
- A 'What we are reading in class' poster on the classroom door
- Text being read in Reading lessons, children's work/ thoughts around it

Science/ History/ Geography displays:

- Enquiry type symbols for Science
- Display board should be split into 6 sections.
- After each lesson, photocopy a piece of work and display it. Make sure the LO or question is visible.
- Key vocabulary in each section. Remember dual coding- each key word should have an image alongside it. This helps children to remember what the word means.

Outside of the classroom display:

- Relevant work from a topic from that half term. Choose a subject that children have been engaged with, celebration of a subject that is not in your classroom.
- Prompts needed to explain what the lesson/ topic is about

Other displays:

- An emotions display that includes names of children/ pictures that children can move daily.
- Small regulation station that is comfortable with a sand timer and a few fidgets. We have given you the title for this.
- Leave the Dojo awards for now
- A display for celebrating children's work
- French display from Year 4-6
- Traffic lights and what it means to be green display
- Safeguarding information for children
- Marking and feedback policy
- British values terminology- we have given you a poster for this
- School councillors once chosen
- Anti-bullying ambassadors once chosen
