April 2026

Dear Families,

We are looking forward to welcoming your child to Nursery at Pinner Wood School in September.

To support with our induction process and to provide a smooth transition for your child, we will be completing home visits. This will support us in:

- Building a positive and caring relationship between the staff and your child before they begin school
- To meet with your child in a familiar setting where they feel happy, settled and comfortable
- To provide you an opportunity to ask questions or share information about your child

Each visit will last around 15 minutes and will be an informal chat alongside a chance for us to meet your child. We would love to talk about your child's likes and dislikes, if they have been to Nursery, health information and anything else you feel is important to know about your child.

We are excited to continue these visits again this year as they are invaluable to us to make those connections and build those important first steps with yourself and your child. We wish to remain respectful in your home so please inform us on the day of anything we can do to make you feel comfortable (e.g. removing our shoes) and we do not expect any food or drink to be provided.

We understand that you may not feel comfortable with a home visit taking place. Please email the office for the attention of Mrs Kearney (Assistant Headteacher) to discuss your concerns. The visits will take place towards to end of June and you will receive further information about your visit date and time in week beginning 1st June.

Following the home visits, the children will be beginning school in smaller groups to further support with the transition process.

We look forward to meeting you and your child soon.

Kind regards,

Mrs Kearney, Miss Baker and the Nursery Team
