POLICY FOR MUSIC

INTENT

At Castle View Primary, we believe the involvement of musical related activities across the curriculum supports a child to achieve a higher level of vocabulary, communication and success in their school experience and later on in life. Research has shown that listening to music can reduce anxiety, blood pressure and pain as well as improve sleep quality, mood, mental alertness, and memory. We also believe that music embodies the highest form of human creativity alongside the arts and gives rise to this in others. Therefore; at Castle View, music is highly celebrated and embraced. Alongside specialist music teaching, all children follow Oak National Academy for the delivery of the music curriculum.

The children will: -

- Perform, listen to, review and evaluate music across a range of historical periods, genres, styles and traditions, including the works of the great composers and musicians
- Learn to sing and to use their voices, to create and compose music on their own and with others, have the opportunity to learn a musical instrument, use technology appropriately and have the opportunity to progress to the next level of musical excellence
- Understand and explore how music is created, produced and communicated, including through the inter-related dimensions: pitch, duration, dynamics, tempo, timbre, texture, structure and appropriate musical notations.

Castle View Primary Schools Aims of Music

Along with implementing the National Curriculum aims of music, Castle View Primary School aims to ensure all children in our school have access to, and enjoy, music across the curriculum.

Castle View Primary School strongly believe that music is a practical, creative subject which can be of benefit to all children in developing imagination, vocabulary and understanding, as well as the ability to listen attentively and express personal thoughts and feelings.

IMPLEMENTATION

All children will be taught the skills and knowledge of music as outlined in the in the National Curriculum for music.

The implementation of this policy is the responsibility of all teaching staff, including singing, performance and drumming specialists.

All class teachers are responsible for ensuring the music aims are taught to pupils in their class.

- Our Early Years Foundation Stage (EYFS) children have the same access to the music curriculum as our Key Stage One children. The emphasis for EYFS is enjoyment and participation, as well as supporting children to reach the Early learning goals set out in the Statutory Framework for The Early Years Foundation Stage.

- Musical activities are planned in such a way as to encourage full and active participation and enjoyment by all children irrespective of ability.
- Children will be given opportunities to listen to and discuss examples of work, such as:
- The musical elements of pitch, duration, pace, timbre, texture, dynamics and structure will be progressively taught.
- Children will develop a musical vocabulary and knowledge.
- Opportunities for singing and opportunities for using instruments will be provided.
- Every year, every child will learn to play a different tuned or untuned instrument and perform to an audience.
- We will make links with music and other subjects, as music is a subject that lends itself to cross curricular work e.g. Dance - response to music through PE, to stimulate an artistic activity, to accompany a poem.
- Equal value and consideration is given to music from all cultures and equal value is given to the contribution of both men and women in the world of music.
- Children will be increasingly challenged as they move through the school. This progression will have three aspects:
 - Increasing breadth and range of musical experiences
 - Increasing challenge and difficulty in musical activities
 - Increasing confidence, sensitivity and creativity in the children's music-making

IMPACT

The music curriculum at Castle View Primary plays a pivotal role in shaping our pupils' overall development and well-being. Through engaging and diverse musical experiences, we foster not only artistic skills but also essential life skills such as teamwork, discipline, and resilience. Participation in music enhances pupils' cognitive abilities, boosts their confidence, and cultivates a sense of belonging within the school community. By prioritising music education, we not only enrich our pupils' lives but also instil a lifelong love for music, empowering them to thrive both personally and academically.
