

OUTSTANDING ENRICHMENT

Dear Parents / Guardian

Please find attached a list of Enrichment Activities we have provided this academic year.

Throughout the year there are curriculum related educational visits or school-based workshops so that Marus Bridge's curriculum remains innovative and meets the needs of every learner by deepening children's learning experiences.

In addition, we give our pupils the opportunity to experience theatre, life education skills, an enormous variety of sports and activity clubs as well as contributing to the wider community through charitable support.

We appreciate that financially what we offer can be challenging for some families and value the contributions that you make to ensure that the various opportunities can go ahead. Transport costs, insurance and visit/workshop charges soon mount up these days. So, thank you again for your support.

As a school and with support from the PTA, we subsidise every enrichment activity. This is to try to keep the costs to parents/carers to a minimum and we are grateful to the Friends Of Marus Bridge Association for their considerable financial support in paying towards several of the enrichment opportunities yearly. If we cannot meet the cost of visits, workshops or experiences then they would not be able to proceed.

We believe that the children of Marus Bridge deserve the best primary school experience possible, and we strive to ensure that their lives are enriched while they are with us. If you have any ideas on what activities, clubs, trips might further enhance our enrichment offer that we do not currently provide, please get in touch and we can investigate this for the next academic year.

Thank you again for supporting our vision in providing outstanding opportunities for Marus Bridge Pupils.

Kind Regards

Mrs A. Atkinson
