Autumn Term

Maths at SASJ

At SASJ, we are part of the North West NCETM Maths Hub, which offers collaborative support in offering a Maths Mastery curriculum. Maths should not be seen as just 'doing,' but 'seeing' Maths. Maths is a crucial part of life and we aim to provide our pupils with a range of mathematical problems to extend learning and provide the skills needed to be strong mathematicians in the world.

Our Maths teaching and learning is underpinned with the Five Big Ideas. These Five Big Ideas are woven into the Maths curriculum and provide our pupils with challenge and deeper understanding of mathematical problems

Teaching for Mastery

The 5 Big Ideas of Maths Mastery

Jack chose a number.

He multiplied the number by 7

Then he added 85

His answer was 953

What number did Jack choose?

*Year 6 past SATs paper question - Challenge
Have a go!*

Maths Workshops

From January, we will be hosting Maths Workshops, where families can come in and watch Maths Mastery being delivered.

Our first session will be hosted by Mr Robinson in Year 6. We will host the lesson in the school hall and all are welcome to attend, even if your child/ children aren't in this year group. As part of the session, ways in which you have further support your child's/ children's learning will be discussed and any questions you may have will be answered.

Monday 12th January 2026 @ 9:30 - 10:30
