## Anglo Saxons

### Ruby & Diamond Class

The Anglo-Saxons lived in Britain from around 410 to 1066. Anglo-Saxons were a group who were Angles and Saxons. They came over to England from Germany, Holland and Denmark.

The Scots were not Anglo-Saxons, instead they were a combination of two Celtic-speaking groups, the Picts and the Gaels.

#### Sticky Knowledge I know:

Sutton Hoo is an archaeological, burial ship site of an Anglo Saxon.

The Anglo-Saxons were not one group of people. They came from many different places.

The Anglo-Saxons conquered the Britons who were living in England and pushed them north. These were the Picts and Scots.

The Picts, Scots and Anglo Saxons would battle, constantly trying to gain more land and power from each other.

Their religion was mixed: Christianity and Paganism.
