4 BROAD AREAS OF NEED

SEND IN A NUTSHELL

STRENGTHS

South Failsworth has a very experienced SENDCO who is a Specialist Leader in Education for SEND and provides strong leadership of SEND and inclusion across the school.

Early identification: all staff take time to get to know the individual child, working alongside parents and other professionals to identify need as early as possible.

Parents and pupils are actively involved in planning support and reviewing progress; their views are regularly sought in order to improve SEND Practice.

NUMBER OF PUPILS WITH SEND BY YEAR GROUP

2025/2026

YEAR	SCHOOL SUPPORT	EHCP	TOTAL
N	3	0	3
R	6	1	7
1	10	3	13
2	11	3	14
3	7	5	12
4	9	2	11
5	10	2	12
6	6	5	11

SEND FIGURES	% NATIONAL FIGURES FOR PRIMARY SCHOOLS	% OF PUPILS AT SOUTH FAILSWORTH JULY 2024
% of pupils with SEND	20.8%	19.7%
EHCP pupils	6%	5%
SEND support	15.4%	14.6%

AREAS FOR DEVELOPMENT

To further develop assessment systems for children working well below year-group expectations.

To develop all staff's understanding of behaviour as communication and train staff in Team Teach de-escalation strategies.

At South Failsworth, Communication and Interaction is our highest area of need followed by SEMH. This is a similar picture to National figures.

We are an inclusive school and our SEND figures are broadly in line with National figures

STAFF TRAINING this year includes:

Behaviour as communication

Behaviour as Communication training helps staff understand that all behaviour is a form of communication, particularly for children who may have difficulties expressing their needs, emotions, or feelings through language

WellComm

WellComm is a speech, language and communication toolkit used to identify children who may be experiencing delays or difficulties with speech, language and communication development. It enables practitioners to assess children's skills, identify areas of need and provide targeted interventions to support progress.

Team Teach

Team Teach is a nationally recognised training programme that promotes positive behaviour support, de-escalation and safe responses to behaviours of concern. The approach focuses on understanding the reasons behind behaviour, building positive relationships and reducing the need for restrictive interventions through proactive, supportive strategies.

Helping Children with Loss

EHelping Children with Loss training supports staff to understand the impact that bereavement, separation, family breakdown, significant change and other forms of loss can have on a child's emotional wellbeing, behaviour and learning. The training provides practical strategies to help children process difficult experiences and develop resilience in a supportive and nurturing environment

SEND Pupils

Boys - 69% Girls - 31%

This is slightly above for boys than the national figures:

61% boys and 38% girls

Pupil Premium - 17% below national at 25%

EAL - 7.1%
