

ART

We will be finding out about sketching and using different pencils to draw using tonal gradient and cross hatching. We will also find out about some famous artists including Vermeer.

RE

We will be investigating what different religions believe about God.

SCIENCE

We will research how animals have adapted to the food they eat and investigate their skeletons, if they have one. We will also find out about the importance of healthy diets.

MATHS

We will be working with numbers up to one thousands and learning about place value.

PE

We will be playing invasion games where we will learn to pass and receive the ball, dribble a ball with control and defend.

ENGLISH

we will plan, write and edit letter using Year 3 features whilst finding out about paragraphs, prepositions and inverted commas.

HISTORY

We will learn about how people lived in the Stone Age, and study artefacts that help us learn about what life was like during that period.

Year 3 Autumn 1 The Stone Age

ICT

We will be learning that digital devices have inputs, processes, and outputs, and how devices can be connected to make networks

MUSIC

Using the song "Let Your Spirit Fly" we will play musical games, and find out about the dimensions of music (pulse, rhythm, pitch etc) as well as singing and playing instruments.
